

Table of Contents

DOMAIN I MATHEMATICS 1

COMPETENCY 1 KNOWLEDGE OF NUMBER SENSE, CONCEPTS, AND OPERATIONS 5

- Skill 1.1: Compare the relative value of real numbers** (*e.g., integers, fractions, decimals, percents, irrational numbers, and numbers expressed in exponential or scientific notation*) 5
- Skill 1.2: Solve real-world problems involving addition, subtraction, multiplication, and division of rational numbers** (*e.g., whole numbers, integers, decimals, percents, and fractions including mixed numbers*) 8
- Skill 1.3: Apply basic number theory concepts including the use of primes, composites, factors, and multiples in solving problems** 19
- Skill 1.4: Apply the Order of Operations with or without grouping symbols** 21

COMPETENCY 2 KNOWLEDGE OF MEASUREMENT (USING CUSTOMARY OR METRIC UNITS) 22

- Skill 2.1: Solve real-world problems involving length, weight, mass, perimeter, area, capacity, and volume** 22
- Skill 2.2: Solve real-world problems involving rated measures** (*e.g., miles per hour, meters per second, cost per item, and cost per unit*) 30
- Skill 2.3: Solve real-world problems involving scaled drawings** (*e.g., maps, blueprints, and models*) 31
- Skill 2.4: Solve real-world problems involving the change of units of measures of length, weight, capacity, and time** 32
- Skill 2.5: Solve real-world problems involving estimates of measures including length, weight, mass, temperature, time, money, perimeter, area, and volume** 33
- Skill 2.6: Choose the correct reading, to a specified degree of accuracy, using instruments** (*e.g., scales, rulers, thermometers, measuring cups, protractors, and gauges*) 37

COMPETENCY 3 KNOWLEDGE OF GEOMETRY AND SPATIAL SENSE 39

- Skill 3.1: Identify and/or classify simple two- and three-dimensional figures according to their properties** 39
- Skill 3.2: Solve real-world and mathematical problems involving ratio, proportion, similarity, congruence, and the Pythagorean relationship** 42

Skill 3.3: Identify the location of ordered pairs of integers in all four quadrants of a coordinate system (*graph*) and use the coordinate system to apply the concepts of slope and distance to solve problems 48

Skill 3.4: Identify real-world examples that represent geometric concepts including perpendicularity, parallelism, tangency, symmetry, and transformations (*e.g., flips, slides, and turns*) 50

COMPETENCY 4

KNOWLEDGE OF ALGEBRAIC THINKING 54

Skill 4.1: Analyze and generalize patterns including arithmetic and geometric sequences 54

Skill 4.2: Interpret algebraic expressions using words, symbols, variables, tables, and graphs 55

Skill 4.3: Solve equations and inequalities graphically or algebraically 57

Skill 4.4: Determine whether a number or ordered pair is among the solutions of given equations or inequalities 69

COMPETENCY 5

KNOWLEDGE OF DATA ANALYSIS AND PROBABILITY 70

Skill 5.1: Analyze data and solve problems using data presented in histograms, bar graphs, circle graphs, pictographs, tables, and charts 70

Skill 5.2: Identify how the presentation of data can lead to different or inappropriate interpretations 73

Skill 5.3: Calculate range, mean, median, and mode(s) from sets of data and interpret the meaning of the measures of central tendency (*i.e., mean, median, and mode*) and dispersion (*i.e., range and standard deviation*) 73

Skill 5.4: Identify how the measures of central tendency (*i.e., mean, median, or mode*) can lead to different interpretations 75

Skill 5.5: Calculate the probability of a specified outcome 76

Skill 5.6: Solve and interpret real-world problems involving probability using counting procedures, tables, tree diagrams, and the concepts of permutations and combination 79

DOMAIN II

ENGLISH 85

COMPETENCY 6

CONCEPTUAL AND ORGANIZATIONAL SKILLS 87

Skill 6.1: Identify logical order in a written passage 87

Skill 6.2: Identify irrelevant sentences 89

COMPETENCY 7

WORD CHOICE SKILLS 91

Skill 7.1: Choose the appropriate word or expression in context 91

Skill 7.2: Recognize commonly confused or misused words or phrases 95

Skill 7.3: Recognize diction and tone appropriate to a given audience 100

COMPETENCY 8

SENTENCE STRUCTURE SKILLS	102
Skill 8.1: Recognize correct placement of modifiers	102
Skill 8.2: Recognize parallelism, including parallel expressions for parallel ideas	104
Skill 8.3: Recognize fragments, comma splices, and run-on sentences	108

COMPETENCY 9

GRAMMAR, SPELLING, CAPITALIZATION, AND PUNCTUATION SKILLS	114
Skill 9.1: Identify standard verb forms	114
Skill 9.2: Identify inappropriate shifts in verb tense	118
Skill 9.3: Identify agreement between subject and verb	120
Skill 9.4: Identify agreements between pronoun and antecedent	123
Skill 9.5: Identify inappropriate pronoun shifts	126
Skill 9.6: Identify clear pronoun references	126
Skill 9.7: Identify proper case forms	128
Skill 9.8: Identify the correct use of adjectives and adverbs	130
Skill 9.9: Identify appropriate comparative and superlative degree forms	133
Skill 9.10: Identify standard spelling	136
Skill 9.11: Identify standard punctuation	139
Skill 9.12: Identify standard capitalization	143

DOMAIN III

READING	147
----------------------	------------

COMPETENCY 10

KNOWLEDGE OF LITERAL COMPREHENSION	149
Skill 10.1: Recognize main ideas	149
Skill 10.2: Identify supporting details	150
Skill 10.3: Determine meaning of words in context	151

COMPETENCY 11

KNOWLEDGE OF INFERENTIAL COMPREHENSION	156
Skill 11.1: Determine purpose	156
Skill 11.2: Identify overall organizational pattern	157
Skill 11.3: Distinguish between fact and opinion	157
Skill 11.4: Recognize bias	158

Skill 11.5: Recognize tone 159

Skill 11.6: Determine relationships between sentences 161

Skill 11.7: Analyze the validity of arguments 162

Skill 11.8: Draw logical inferences and conclusions..... 163

DOMAIN IV

ESSAY..... 167

Skill 12.1: Determine the purpose for writing 170

Skill 12.2: Formulate a thesis or statement of main idea 171

Skill 12.3: Organize ideas and details effectively 175

Skill 12.4: Provide adequate, relevant supporting material 178

Skill 12.5: Use effective transitions 179

Skill 12.6: Demonstrate a mature command of language 179

Skill 12.7: Avoid inappropriate use of slang, jargon, and clichés 179

Skill 12.8: Use a variety of sentence patterns effectively 180

Skill 12.9: Maintain consistent point of view 180

Skill 12.10: Observe the conventions of standard American English 181

SAMPLE TEST

MATHEMATICS 185

Answer Key 194

Rigor Table 194

Sample Test with Rationales..... 195

ENGLISH..... 209

Answer Key 218

Rigor Table 218

Sample Test with Rationales..... 219
