

Table of Contents

DOMAIN I

READING AND ENGLISH LANGUAGE ARTS..... 1

COMPETENCY 1

UNDERSTAND CONCEPTS OF PRINT AND PHONOLOGICAL AWARENESS..... 5

Skill 1.1: Recognizing developmental stages in learning to write and read 5

Skill 1.2: Demonstrating knowledge of characteristics and purposes of printed information and developmentally appropriate strategies for promoting students' familiarity with concepts of print.....7

Skill 1.3: Demonstrating knowledge of phonological awareness (*i.e., awareness that oral language includes units such as spoken words and syllables*) 12

Skill 1.4: Demonstrating knowledge of phonemic awareness (*i.e., ability to perceive and discriminate among the component sounds in a spoken word*)..... 15

Skill 1.5: Analyzing the significance of phonological and phonemic awareness in reading acquisition..... 17

Skill 1.6: Recognizing developmentally appropriate strategies for promoting students' phonological and phonemic awareness (*e.g., identifying rhyming words, segmenting words, and blending phonemes*) 20

COMPETENCY 2

UNDERSTAND WORD IDENTIFICATION STRATEGIES, INCLUDING PHONICS 25

Skill 2.1: Recognizing how beginning writers and readers learn to apply knowledge of the relationship between letters and letter combinations of written words and the sounds of spoken words..... 25

Skill 2.2: Demonstrating knowledge of phonics skills and their application to decoding unfamiliar words 30

Skill 2.3: Applying knowledge of structural analysis as a word identification strategy (*e.g., identifying prefixes, suffixes, and roots*) 31

Skill 2.4: Demonstrating knowledge of the use of spelling patterns and syllabication as techniques for decoding unfamiliar words..... 33

Skill 2.5: Applying knowledge of developmentally appropriate instruction and curriculum materials for promoting students' decoding skills and word identification strategies 36

COMPETENCY 3

UNDERSTAND THE DEVELOPMENT OF VOCABULARY KNOWLEDGE AND SKILLS ACROSS THE CURRICULUM..... 37

Skill 3.1: Recognizing criteria for selecting appropriate words to increase students' vocabulary knowledge (*e.g., synonyms, antonyms, words with multiple meanings, idioms, and classifications*) 37

Skill 3.2: Demonstrating knowledge of developmentally appropriate strategies for promoting and reinforcing students' oral and written vocabulary knowledge	38
Skill 3.3: Applying knowledge of how context is used to determine the meaning of unfamiliar words	40
Skill 3.4: Recognizing ways to help students identify and use references such as dictionaries and thesauri for various purposes (e.g., determining word meanings and pronunciations, finding alternative word choices)	41

COMPETENCY 4

UNDERSTAND READING FLUENCY AND COMPREHENSION ACROSS THE CURRICULUM

Skill 4.1: Demonstrating knowledge of the concepts of rate, accuracy, expression, and phrasing in reading fluency and recognizing factors that affect fluency	43
Skill 4.2: Analyzing the relationship between reading fluency and comprehension	51
Skill 4.3: Recognizing the effects of various factors (e.g., prior knowledge, context, vocabulary knowledge, graphic cues) on reading comprehension	51
Skill 4.4: Distinguishing among literal, inferential, and evaluative comprehension	53
Skill 4.5: Identifying strategies for promoting students' literal, inferential, and evaluative comprehension	54
Skill 4.6: Applying knowledge of strategies (e.g., predicting, rereading, retelling) that facilitate comprehension before, during, and after reading	56

COMPETENCY 5

UNDERSTAND COMPREHENSION STRATEGIES FOR LITERARY AND INFORMATIONAL TEXTS ACROSS THE CURRICULUM.....

Skill 5.1: Recognizing types and characteristics of literary and informational texts	60
Skill 5.2: Identifying characteristics and functions of literary elements and devices (e.g., plot, point of view, setting)	61
Skill 5.3: Applying strategies for developing students' literary response skills (e.g., making connections between texts and personal experiences)	63
Skill 5.4: Demonstrating knowledge of genres, themes, authors, and works of literature written for children	66
Skill 5.5: Recognizing common patterns of organization in informational texts (e.g., chronological, cause and effect)	71
Skill 5.6: Applying knowledge of strategies for promoting comprehension of informational texts (e.g., identifying the main idea and explicit and implicit supporting details, using a glossary, using a graphic organizer)	77

COMPETENCY 6

UNDERSTAND SKILLS AND STRATEGIES INVOLVED IN WRITING FOR VARIOUS PURPOSES ACROSS THE CURRICULUM.....

Skill 6.1: Recognizing developmental stages of writing, including the use of pictures and developmental spelling	79
Skill 6.2: Analyzing factors to consider in writing for various audiences and purposes, and in writing materials in various genres, formats (e.g., essay, poem), and modes (e.g., descriptive, persuasive, evaluative)	80
Skill 6.3: Demonstrating knowledge of the writing process (e.g., prewriting, drafting, revising, editing) and strategies for promoting students' writing skills	85
Skill 6.4: Demonstrating knowledge of the use of writing strategies and language to achieve various effects (e.g., creating a point of view, showing author's voice, persuading, establishing setting, describing sensory details)	87

Skill 6.5: Applying revision strategies to improve the unity, organization, clarity, precision, and effectiveness of written materials..... 90

Skill 6.6: Demonstrating knowledge of the use of research skills and computer technology to support writing 93

COMPETENCY 7

UNDERSTAND THE CONVENTIONS OF STANDARD ENGLISH GRAMMAR, USAGE, AND MECHANICS 96

Skill 7.1: Demonstrating knowledge of the parts of speech..... 96

Skill 7.2: Demonstrating knowledge of elements of appropriate grammar and usage (*e.g., subject verb agreement, noun-pronoun agreement, verb tense, correct pronoun usage in prepositional phrases*) 97

Skill 7.3: Demonstrating knowledge of appropriate mechanics in writing (*e.g., capitalization, punctuation*) 106

Skill 7.4: Identifying appropriate corrections of errors in sentence structure (*e.g., run-on sentences, misplaced modifiers, sentence fragments*)..... 111

Skill 7.5: Demonstrating knowledge of various types of sentence structures (*e.g., declarative, interrogative*) 115

COMPETENCY 8

UNDERSTAND SKILLS AND STRATEGIES INVOLVED IN SPEAKING, LISTENING, AND VIEWING ACROSS THE CURRICULUM 116

Skill 8.1: Applying knowledge of conventions of one-on-one and group verbal interactions (*e.g., turn taking, responding to questions with appropriate information*) 116

Skill 8.2: Analyzing ways in which verbal cues (*e.g., word choice, tone, volume*) **and nonverbal cues** (*e.g., body language, eye contact*) **affect communication in various situations** 118

Skill 8.3: Demonstrating knowledge of strategies for promoting effective listening skills 119

Skill 8.4: Recognizing types, characteristics, and roles of visual and oral media (*e.g., television, radio, film, electronic media*) 120

Skill 8.5: Demonstrating knowledge of the structures and elements of oral, visual, and multimedia presentations for diverse audiences and for various purposes 121

DOMAIN II

SOCIAL STUDIES 125

COMPETENCY 9

UNDERSTAND IMPORTANT EVENTS, CONCEPTS, AND METHODS OF INQUIRY RELATED TO GEORGIA, U.S., AND WORLD HISTORY 129

Skill 9.1: Recognizing chronological relationships among historical events 129

Skill 9.2: Demonstrating knowledge of the importance and lasting influence of diverse people, events, issues, and developments in Georgia, U.S., and world history (*e.g., slavery, roots of democracy, westward expansion, the Civil War, World Wars I and II, the Cold War, civil rights movement*) 132

Skill 9.3: Demonstrating knowledge of early Native American cultures in North America and their interactions with early explorers	157
Skill 9.4: Analyzing various perspectives, interpretations, and implications of events, issues, and developments in Georgia, U.S., and world history	160
Skill 9.5: Demonstrating knowledge of strategies (e.g., formulating research questions) and resources for historical inquiry	169

COMPETENCY 10

UNDERSTAND MAJOR CONCEPTS, PRINCIPLES, AND METHODS OF INQUIRY RELATED TO GEOGRAPHY

175

Skill 10.1: Applying knowledge of basic concepts of geography (e.g., location, movement of people, interaction among peoples)	175
Skill 10.2: Demonstrating knowledge of major physical and human-constructed features of the earth	178
Skill 10.3: Analyzing interactions between physical systems and human systems (e.g., economic, cultural, political)	181
Skill 10.4: Applying knowledge of maps (e.g., political, physical, topographic, resource), globes, and other geographic tools (e.g., compass rose, legend, map scale)	185
Skill 10.5: Demonstrating knowledge of strategies (e.g., interpreting maps) and resources for geographic inquiry	188

COMPETENCY 11

UNDERSTAND MAJOR CONCEPTS, PRINCIPLES, AND METHODS OF INQUIRY RELATED TO U.S. GOVERNMENT AND CIVICS

190

Skill 11.1: Demonstrating knowledge of the functions of government and the basic principles of the U.S. government as a republic	190
Skill 11.2: Identifying the roles and interrelationships of national, state, and local governments in the United States	191
Skill 11.3: Recognizing the roles and powers of the executive, legislative, and judicial branches of government	193
Skill 11.4: Demonstrating knowledge of the Declaration of Independence, the U.S. Constitution, and the Bill of Rights	194
Skill 11.5: Identifying the rights and responsibilities of U.S. citizenship	195
Skill 11.6: Demonstrating knowledge of strategies and resources (e.g., Internet, mass communication) for inquiry related to government and civics	200

COMPETENCY 12

UNDERSTAND MAJOR CONCEPTS, PRINCIPLES, AND METHODS OF INQUIRY RELATED TO ECONOMICS ..

201

Skill 12.1: Recognizing basic economic concepts (e.g., scarcity, supply and demand, needs and wants, opportunity cost, productivity, trade) and the purposes and functions of currency	201
Skill 12.2: Demonstrating knowledge of the basic structure of the U.S. economy and ways in which the U.S. economy relates to and interacts with the economies of other nations	202
Skill 12.3: Recognizing the roles and interactions of consumers and producers in the U.S. economy	204
Skill 12.4: Identifying the functions of private business, banks, and the government in the U.S. economy	205
Skill 12.5: Identifying the knowledge and skills necessary to make reasoned and responsible financial decisions as a consumer, producer, saver, and borrower in a market economy	207
Skill 12.6: Demonstrating knowledge of strategies (e.g., interpreting graphs and tables) and resources for inquiry related to economics	209

DOMAIN III

MATHEMATICS 211

COMPETENCY 13

UNDERSTAND PROCESSES AND APPROACHES FOR EXPLORING MATHEMATICS AND SOLVING PROBLEMS 215

Skill 13.1: Identifying effective strategies (<i>e.g., determining relevant information, simplifying, estimating</i>) for solving single-step and multi-step problems in mathematical and other contexts.....	215
Skill 13.2: Demonstrating knowledge of strategies for investigating, developing, and evaluating mathematical arguments	218
Skill 13.3: Demonstrating knowledge of how the language and vocabulary of mathematics are used to communicate ideas precisely	224
Skill 13.4: Demonstrating knowledge of the variety of materials, models, and methods used to explore mathematical concepts and solve problems	226
Skill 13.5: Demonstrating knowledge of the interconnections among mathematical concepts	229
Skill 13.6: Recognizing applications of mathematics in other content areas and in everyday life	231

COMPETENCY 14

UNDERSTAND CONCEPTS AND SKILLS RELATED TO NUMBERS AND MATHEMATICAL OPERATIONS 232

Skill 14.1: Applying concepts of quantities, numbers, and numeration to compare, order, estimate, and round	232
Skill 14.2: Demonstrating knowledge of the concepts of place value, prime numbers, multiples, and factors	237
Skill 14.3: Recognizing equivalent forms of common fractions, decimal fractions, and percentages	242
Skill 14.4: Applying knowledge of the relationships among mathematical operations and strategies for using the basic four operations with variables and numbers	245
Skill 14.5: Demonstrating knowledge of properties of numbers and the number system (<i>e.g., commutative, associative, distributive, identity, and property of zero</i>)	246
Skill 14.6: Performing calculations with whole numbers, decimals, and fractions	248
Skill 14.7: Applying methods for making estimations and for evaluating the accuracy of estimated solutions	259

COMPETENCY 15

UNDERSTAND PRINCIPLES AND SKILLS OF MEASUREMENT AND THE CONCEPTS AND PROPERTIES OF GEOMETRY 260

Skill 15.1: Identifying appropriate measurement procedures, tools, and units (<i>e.g., customary and metric</i>) for problems involving length, perimeter, area, capacity, weight, time, and temperature	260
Skill 15.2: Applying knowledge of approaches to direct measurement through the use of standard and nonstandard units and to indirect measurement through the use of algebra or geometry	269
Skill 15.3: Classifying plane and solid geometric figures (<i>e.g., triangle, quadrilateral, sphere, cone</i>).....	270
Skill 15.4: Applying knowledge of basic geometric concepts (<i>e.g., similarity, congruence, parallelism</i>).....	273
Skill 15.5: Applying strategies for measuring the component parts of geometric figures (<i>e.g., angles, segments</i>) and computing the volume of simple geometric solids.....	275
Skill 15.6: Applying knowledge of coordinate systems to identify representations of basic geometric figures and concepts	281
Skill 15.7: Demonstrating knowledge of applications of measurement and geometry in everyday life	283

COMPETENCY 16

UNDERSTAND CONCEPTS AND SKILLS RELATED TO ALGEBRA 287

- Skill 16.1: Recognizing the characteristics of patterns, identifying correct extensions of patterns, and recognizing relationships among patterns** 287
- Skill 16.2: Applying knowledge of the concepts of variable, function, and equation to the expression of algebraic relationships** 289
- Skill 16.3: Identifying relationships among variables based on mathematical expressions, tables, graphs, and rules** 289
- Skill 16.4: Applying the methods of algebra to solve equations and inequalities** 291
- Skill 16.5: Analyzing how algebraic functions are used to plot points, describe graphs, and determine slope** 297
- Skill 16.6: Demonstrating knowledge of applications of algebra in representing relationships and patterns in everyday life** 302

COMPETENCY 17

UNDERSTAND CONCEPTS AND SKILLS RELATED TO DATA ANALYSIS 303

- Skill 17.1: Applying knowledge of methods for organizing and interpreting data in a variety of formats** (*e.g., tables, frequency distributions, line graphs, circle graphs*) 303
- Skill 17.2: Identifying trends and patterns in data** 306
- Skill 17.3: Demonstrating knowledge of standard measures** (*e.g., mean, median, mode, and range*) used to describe data 309
- Skill 17.4: Drawing valid conclusions based on data** 311
- Skill 17.5: Demonstrating knowledge of applications of data analysis in everyday life** 312

DOMAIN IV

SCIENCE 319

COMPETENCY 18

UNDERSTAND THE CHARACTERISTICS AND PROCESSES OF SCIENCE 323

- Skill 18.1: Demonstrating knowledge of the nature of scientific knowledge and the values of science** (*e.g., importance of curiosity, honesty, openness, and skepticism; reliance on verifiable evidence*) 323
- Skill 18.2: Demonstrating knowledge of the principles of scientific inquiry and the design of scientific investigations** 325
- Skill 18.3: Recognizing and applying the unifying concepts of science** (*e.g., systems, models, scale*) 326
- Skill 18.4: Applying knowledge of strategies for observing, collecting, analyzing, and communicating scientific data** (*e.g., using graphs, charts, and tables*) 328
- Skill 18.5: Recognizing appropriate tools, instruments, methods, process skills, and safety procedures associated with given scientific investigations** 331
- Skill 18.6: Demonstrating knowledge of the connections among science, mathematics, technology, society, and everyday life** 335

COMPETENCY 19

UNDERSTAND CONCEPTS AND PRINCIPLES OF EARTH SCIENCE 337

- Skill 19.1: Comparing characteristics of objects in the solar system and universe** (*e.g., stars, planets*) and analyzing the effects (*e.g., seasons, phases of the Moon*) of the relative positions and motions of the earth, Moon, and Sun 337

Skill 19.2: Demonstrating knowledge of the composition, structure, and processes of the earth’s lithosphere (e.g., rocks, minerals), hydrosphere, and atmosphere and the interactions among these systems (e.g., water cycle, weather patterns) 341

Skill 19.3: Applying knowledge of strategies and tools for observing, measuring, predicting, and communicating weather data 345

Skill 19.4: Recognizing the natural and human-caused constructive and destructive processes that shape the Earth’s surface 348

Skill 19.5: Demonstrating knowledge of how fossils are formed and how they provide evidence of organisms that lived long ago..... 353

**COMPETENCY 20
UNDERSTAND CONCEPTS AND PRINCIPLES OF PHYSICAL SCIENCE..... 354**

Skill 20.1: Demonstrating knowledge of the structure and properties of matter (e.g., atoms, elements, molecules, density, boiling and freezing points) 354

Skill 20.2: Distinguishing between physical and chemical changes 357

Skill 20.3: Demonstrating knowledge of the concepts of conservation of matter and conservation of energy as they are applied to physical systems 359

Skill 20.4: Recognizing forms of energy (e.g., heat, light), processes of energy transfer, and the interactions of energy and matter 361

Skill 20.5: Demonstrating knowledge of types of forces (e.g., gravity, friction) and their effects on the position, motion, and behavior of objects..... 363

Skill 20.6: Identifying types and characteristics of simple machines (e.g., lever, pulley)..... 364

Skill 20.7: Recognizing characteristics of light, sound, electricity, and magnetism..... 365

**COMPETENCY 21
UNDERSTAND CONCEPTS AND PRINCIPLES OF LIFE SCIENCE..... 370**

Skill 21.1: Distinguishing between living and nonliving things 370

Skill 21.2: Demonstrating knowledge of different types of organisms and methods of classification..... 370

Skill 21.3: Demonstrating knowledge of the basic needs, characteristics, structures, and life processes of organisms..... 374

Skill 21.4: Applying knowledge of the basic principles of heredity and life cycles 378

Skill 21.5: Demonstrating knowledge of the interactions of organisms with one another and their environment and the flow of energy and matter within an ecosystem 381

Skill 21.6: Analyzing the effects of humans on the environment 382

Skill 21.7: Demonstrating knowledge of factors that affect the survival or extinction of organisms 384

**DOMAIN V
HEALTH, PHYSICAL EDUCATION, AND THE ARTS 387**

**COMPETENCY 22
UNDERSTAND BASIC PRINCIPLES AND PRACTICES RELATED TO HEALTH AND SAFETY 389**

Skill 22.1: Demonstrating knowledge of the primary functions of the human body systems, the processes of human growth and development, and the basic principles of human nutrition 389

Skill 22.2: Recognizing the differences between communicable and noncommunicable diseases and strategies for preventing or treating them (e.g., vaccinations, hand washing, regular exercise, antibiotics)	404
Skill 22.3: Recognizing characteristics of interpersonal relationships (e.g., within families, among peers) and strategies for maintaining healthy interpersonal relationships (e.g., using conflict resolution and positive character development skills)	407
Skill 22.4: Identifying strategies for maintaining personal emotional and physical health (e.g., stress management, sleep, proper diet)	410
Skill 22.5: Recognizing the effects of substance abuse, factors contributing to substance abuse (e.g., media advertising, peer pressure), and strategies for resisting pressure to use alcohol, tobacco products, and other drugs	411
Skill 22.6: Identifying safety practices to avoid accidents and injuries	413

COMPETENCY 23

UNDERSTAND BASIC PHYSICAL EDUCATION PRINCIPLES, PRACTICES, AND ACTIVITIES..... 416

Skill 23.1: Identifying the components of health-related fitness (e.g., cardiovascular endurance, muscular strength, flexibility) and appropriate activities for promoting each of the different components	416
Skill 23.2: Demonstrating knowledge of activities that promote the development of locomotor, nonlocomotor, manipulative, and perceptual awareness skills in children	421
Skill 23.3: Applying knowledge of basic rules and strategies for developmentally appropriate physical activities, cooperative and competitive games, and sports	425
Skill 23.4: Recognizing the role that participation in physical activities can play in promoting positive personal and social behaviors	432

COMPETENCY 24

UNDERSTAND BASIC ELEMENTS, CONCEPTS, AND TECHNIQUES ASSOCIATED WITH THE ARTS 437

Skill 24.1: Identifying the basic elements, concepts, and terms associated with dance, music, drama, and the visual arts (e.g., pathways, rhythm, plot, perspective)	437
Skill 24.2: Recognizing the basic techniques, processes, tools, and materials for creating, performing, and producing works in the various arts	441
Skill 24.3: Applying knowledge of diverse strategies for promoting critical analysis, cultural perspectives, and aesthetic understandings of the arts	443
Skill 24.4: Recognizing how the arts can be used as a form of communication, self-expression, and social expression	446
Skill 24.5: Demonstrating knowledge of the connections among the arts as well as between the arts and other areas of the curriculum and everyday life	447
Skill 24.6: Recognizing the role and function of the arts in various cultures and throughout history	451

SAMPLE TEST

Sample Test	457
Answer Key	475
Rigor Table	475
