

Table of Contents

DOMAIN I

CONTENT KNOWLEDGE AND STUDENT GROWTH AND DEVELOPMENT 1

COMPETENCY 1

CORE CONCEPTS 3

Skill 1.1: Terminology, principles, concepts, and applications of the basic sciences as related to motor skills and movement activities (e.g., anatomy and physiology, exercise physiology, biomechanics and kinesiology, motor development and motor learning) 3

Skill 1.2: Principles of biomechanics and kinesiology as they relate to motor skills and movement patterns (e.g., summation of forces, center of gravity, force/speed relations, torque) 6

Skill 1.3: Movement concepts (e.g., body awareness, spatial awareness, effort, relationship) 7

Skill 1.4: Exercise physiology (e.g., components of health-related fitness; components of skill-related fitness; fitness guidelines such as frequency, intensity, time/duration, type/mode; principles of exercise such as specificity, overload, progression; roles of body systems in exercise; short-term and long-term effects of physical training; nutrition as related to exercise; fitness; metabolic response to exercise) 9

Skill 1.5: Anatomy and physiology (e.g., skeletal, muscular, nervous, circulatory, and respiratory systems) 16

Skill 1.6: Current and historical trends, issues, and developments in physical education (e.g., laws, teaching methods, theories, concepts, techniques) 25

Skill 1.7: Understanding of the rules, strategies, skills, techniques, and concepts associated with a variety of movement activities and games across the age and grade spectra; emphasis predominately on softball, soccer, swimming, tennis, track and field, and volleyball, with questions based on possibly other sports and activities commonly used in physical education settings 35

Skill 1.8: Liability and legal consideration pertaining to the use of equipment, class organization, supervision, and program selection 49

Skill 1.9: Effects of substance abuse on student performance, health, and behavior 57

COMPETENCY 2

STUDENT GROWTH AND DEVELOPMENT 58

Skill 2.1: Sequential and developmentally appropriate learning and practice opportunities based on growth and motor development stages, individual characteristics and individual needs of students, learning environment, and task 58

Skill 2.2: Monitoring of individual performance and group performance in order to design safe instruction that meets students' developmental needs in the psychomotor, cognitive, and affective domains 59

Skill 2.3: Developmental readiness to learn and refine motor skills and movement patterns (*e.g., biological, psychological, sociological, experimental, environmental*) 61

Skill 2.4: Perception in motor development 62

Skill 2.5: Appropriate and effective instruction related to students’ cultures and ethnicities, personal values, family structures, home environments, and community values..... 62

Skill 2.6: Use of appropriate professional support services and resources to meet students’ needs 63

**DOMAIN II
MANAGEMENT, MOTIVATION, AND COMMUNICATION 65**

**COMPETENCY 3
MANAGEMENT AND MOTIVATION 67**

Skill 3.1: Principles of classroom management practices that create effective learning experiences in physical educational settings..... 67

Skill 3.2: Psychological and social factors that affect individual learning and group learning, participation, cooperation, and performance in physical education settings 68

Skill 3.3: Organization, allocation, and management of resources to provide active and equitable learning experiences (*e.g., time, space, equipment, activities, teacher attention, students*)..... 70

Skill 3.4: Motivation of students to participate in physical activity both in school and outside of school 71

Skill 3.5: Promotion of positive relationships, encouragement of responsible personal and social behaviors among students, and establishment of a productive learning environment..... 72

Skill 3.6: Development and use of an effective behavior management plan..... 72

**COMPETENCY 4
COMMUNICATION 74**

Skill 4.1: Effective verbal and nonverbal communication skills in a variety of physical activity settings 74

Skill 4.2: Specific appropriate instructional feedback in skill acquisition, student learning, and motivation 75

Skill 4.3: Communication of classroom management and instructional information in a variety of ways (*e.g., verbally and nonverbally and via bulletin boards, music, task cards, posters, technology*) 75

Skill 4.4: Communication in ways that show respect and consideration for students, colleagues, and parents 76

**DOMAIN III
PLANNING, INSTRUCTION, AND STUDENT ASSESSMENT 79**

**COMPETENCY 5
PLANNING AND INSTRUCTION 81**

Skill 5.1: Teaching of skillful movement, physical activity, and fitness via pedagogy, sociology, psychology, anatomy and physiology, biomechanics and kinesiology, motor development and motor learning..... 81

Skill 5.2: Sequencing of motor skill activities and use of movement concepts and effective strategies to improve learning in physical education activities and to improve skill development 84

Skill 5.3: Provision of feedback to enhance skill development..... 85

Skill 5.4: Activities designed to improve health-related and skill-related fitness 86

Skill 5.5: Current issues, trends, and laws affecting the choice of appropriate program and instructional goals and objectives 89

Skill 5.6: Identification, development, and implementation of appropriate program and instructional goals and objectives 90

Skill 5.7: Development of unit and lesson plans based on local, state, and national standards; program goals; instructional goals; and students' needs..... 91

Skill 5.8: Appropriate instructional strategies to facilitate learning in the physical activity setting based on selected content, students' needs, safety concerns, facilities and equipment, and instructional models 92

Skill 5.9: Use of teaching resources and curriculum materials to design learning experiences..... 93

Skill 5.10: Explanations, demonstrations, and appropriate instructional cues and prompts to link physical activity concepts to learning experiences and to facilitate motor skill performance 93

Skill 5.11: General and specific safety and injury prevention guidelines for planning of movement and fitness activities (e.g., first aid, cardiopulmonary resuscitation) 94

COMPETENCY 6

STUDENT ASSESSMENT 102

Skill 6.1: Assessment of student skill performance and fitness via a variety of tools (e.g., observations, data, charts, graphs, rating scales) 102

Skill 6.2: Gathering of data and assessment of student learning in the cognitive and affective domains by a variety of techniques (e.g., written assessments, rating scales, observations) 102

Skill 6.3: Understanding of fitness assessments such as President's Challenge and Fitness program 103

Skill 6.4: Types of assessments and assessment methods (e.g., formative, summative, authentic, portfolio, standardized, rubric, criterion, referenced, norm-referenced) 104

Skill 6.5: Validity, reliability, bias, and ways of interpreting assessment results 105

Skill 6.6: Appropriate assessment techniques to assess and improve students' understanding and performance, provide feedback, communicate students' progress, guide students' personal goal setting, and guide curricular and instructional decisions..... 105

Skill 6.7: Involvement of students in self-assessment and peer assessment..... 106

Skill 6.8: Appropriate assessment of individuals with disabilities 107

Skill 6.9: Referral procedures under the Individuals with Disabilities Education Act and Section 504 of the Vocational Rehabilitation Act..... 107

DOMAIN IV

COLLABORATION, REFLECTION, AND TECHNOLOGY 109

COMPETENCY 7

COLLABORATION..... 111

Skill 7.1: Current educational issues that cross subject matter boundaries..... 111

Skill 7.2: Integration of knowledge and skills from multiple subject areas in physical education..... 111

Skill 7.3: Establishment of productive relationships to support student growth and well-being with school colleagues and administrators, parents and guardians, community members, and organizations 112

Skill 7.4: Promotion of a variety of opportunities for physical activity in the school and the community 113

COMPETENCY 8
REFLECTION 113

Skill 8.1: Use of the reflective cycle to facilitate change in teacher performance, student learning, and instructional goals and decisions (e.g., planning, teaching, assessment, reflection)..... 113

Skill 8.2: Use of available resources to develop and grow as a reflective professional (e.g., students, colleagues, literature, professional organization memberships, professional development opportunities) 114

COMPETENCY 9
TECHNOLOGY..... 115

Skill 9.1: Design, development, and implementation of student learning activities that integrate information technology 115

Skill 9.2: Use of technologies to communicate, instruct, assess, keep records, network, locate resources, present information, and enhance professional development 116
