Pg.

<b>DOMAIN I.</b>	<b>FACTORS OTHER THAN DIRECT INSTRUCTION THAT INFLUENCE THE EDUCATION OF STUDENTS WITH BEHAVIORAL DISORDERS/EMOTIONAL DISTURBANCE</b>	
<hr/>		
Skill 1.01	Basic concepts, including characteristics of students with behavioral disorders/emotional disturbance, such as psychological characteristics (for example, neuroses, psychoses, anxiety, depression) .....	1
Skill 1.02	Affective characteristics (for example, social-emotional development, interpersonal skills) .....	4
Skill 1.03	Adaptive/ maladaptive behavioral characteristics (for example, self-injurious behavior, eating disorders, substance abuse, aggression, social maladjustment , conduct disorders, delinquency) .....	8
Skill 1.04	The relationship between behavior disorders/emotional disturbance and distractibility, hyperactivity, and impulsivity; .....	13
Skill 1.05	Causation and prevention (for example, environmental factors, cultural factors, genetic factors, neurological factors).....	16
Skill 1.06	Definitions/terminology related to behavioral disorders/emotional disturbance (for example, federal definition [IDEA]; professional organizations' definitions [DSM CEC]).....	17
<b>DOMAIN II.</b>	<b>DELIVERY OF SERVICES TO STUDENTS WITH BEHAVIORAL DISORDERS / EMOTIONAL DISTURBANCE</b>	
<hr/>		
Skill 2.01	Conceptual approaches (medical, psychodynamic, behavioral, sociological, cognitive, and eclectic).....	20
Skill 2.02	Professional roles/issues/literature, such as public attitudes toward individuals with behavioral disorders/emotional disturbance .....	23
Skill 2.03	The teacher's role as promoter of advocacy (for example , helping parents become advocates for their children, developing student self-advocacy, advocating for students' families and for educational change) .....	26
Skill 2.04	The teacher's responsibility in cases of suspected abuse or neglect .....	31

Skill 2.05	The use of professional literature/ organizations and formal published research for improving classroom practice and reflecting on one’s own teaching.....	33
Skill 2.06	Influences of teacher attitudes and expectations on student achievement and behavior; and ways to work with health-related service and social service providers .....	47
Skill 2.07	Assessment, including how to modify, construct, or select and conduct nondiscriminatory and appropriate informal and formal assessment procedures .....	49
Skill 2.08	How to interpret standardized and specialized assessment results .....	59
Skill 2.09	How to use evaluation results in IEP/ITP development, and how to prepare written reports and communicate findings to others .....	61
Skill 2.10	Placement and program issues, including ways to apply a continuum of alternative placements and related services (for example, early intervention, support systems, least restrictive environment, REI, main -streaming, integration, and inclusion) ....	63
Skill 2.11	How to participate in the IEP/ITP processes in a manner that is responsive to cultural and community influences .....	71
Skill 2.12	How to identify, develop, or adapt and use appropriate instructional materials.....	73
Skill 2.13	How to work with classroom personnel and external resources ....	81
Skill 2.14	How to display awareness of students’ abilities and aptitudes and use appropriate alternative methods for instruction, evaluation, and grading (for example, through peer-group tutoring and instructional techniques).....	84
Skill 2.15	Curriculum and instruction, including determining current levels of performance, determining instructional needs, identifying appropriate related services and modifications of standard educational practice, establishing effective data collection.....	92
Skill 2.16	Preparing legally correct IEP/ITP instructional goals and objectives and selecting chronologically and developmentally age-appropriate instructional activities and materials .....	93

Skill 2.17	Using appropriate planning and sequencing of instructional strategies .....	104
Skill 2.18	Using data-based decision-making to select from varied teaching strategies and methods, including direct instruction, cooperative learning, task analysis, diagnostic-prescriptive methods, and applied behavior analysis .....	107
Skill 2.19	Using varied instructional formats and components, including motivation, modeling, drill and practice, demonstration, corrective feedback, and reinforcement with individuals and with small and large groups, as appropriate.....	115
Skill 2.20	How to manage the learning environment, including using behavior management, behavior analysis (such as identification and definition of antecedents, target behavior, consequent events)...	117
Skill 2.21	Data-gathering procedures (to manage the learning environment); selecting and using behavioral interventions (for example, approaches to changing behaviors, such as behavioral, cognitive behavioral, and affective, degrees of intrusiveness).....	126
Skill 2.22	Using classroom organization/ management (to manage the learning environment).....	130
Skill 2.23	Providing the appropriate physical-social environment for learning .....	132
Skill 2.24	Planning transitions between lessons and activities; grouping students.....	138
Skill 2.25	Maintaining effective and efficient documentation (such as <i>parent/teacher contacts and legal records</i> ) .....	139
<b>Sample Test</b> .....		<b>141</b>
<b>Answer Key</b> .....		<b>177</b>
<b>Rationales with Sample Questions</b> .....		<b>178</b>
<b>References</b> .....		<b>236</b>
