TEST I. HEALTH

SUBAREA I. PERSONAL HEALTH AND DEVELOPMENT

COMPETENCY 1.0 UNDERSTAND HUMAN GROWTH AND DEVELOPMENT	1
SKILL 1.1 Demonstrating knowledge of patterns, stages, and characteristics of physical, cognitive, social, and emotional growth and development.....	1
SKILL 1.2 Recognizing factors that affect physical, cognitive, social, and emotional growth and development in childhood and adolescence (e.g., effects of economic factors on child development).....	3
SKILL 1.3 Analyzing factors that affect maturation from childhood to adolescence and from adolescence to young adulthood and ways to address these transitions.....	6
SKILL 1.4 Analyzing ways in which heredity, environment, and the complex interaction of both affect human growth and development	7
COMPETENCY 2.0 UNDERSTAND THE STRUCTURES AND FUNCTIONS OF THE MAJOR BODY SYSTEMS AND THE RELATIONSHIP OF PERSONAL HEALTH TO BODY SYSTEMS AND THEIR FUNCTIONING	8
SKILL 2.1 Identifying major components, functions, and actions of the endocrine/immune, skeletal, muscular, circulatory, respiratory, digestive, and reproductive systems.....	8
SKILL 2.2 Recognizing common health-related problems of childhood and adolescence and methods of preventing and treating childhood illnesses	15
SKILL 2.3 Identifying ways in which various diseases affect the functioning of major body systems.....	17
SKILL 2.4 Evaluating the impact of various factors (e.g., inactivity, disease, diet) on body systems.....	19

SKILL 2.5 Analyzing the impact of body systems and their functioning on personal health 21

COMPETENCY 3.0 UNDERSTAND NUTRITIONAL REQUIREMENTS AND THE IMPACT OF NUTRITION ON PERSONAL HEALTH 22

SKILL 3.1 Identifying functions and sources of nutrients (i.e., carbohydrates, proteins, fats, vitamins, minerals, and water) and the nutritional value of various foods..... 22

SKILL 3.2 Recognizing dietary disorders and health problems associated with nutritional deficiencies and excesses and the relationship between nutrition and disease prevention..... 23

SKILL 3.3 Recognizing components and principles of the Food Guide Pyramid, the Dietary Guidelines for Americans, and regulations related to food labels and packaging 25

SKILL 3.4 Analyzing factors (e.g., psychological, economic, cultural) affecting food choices and eating habits and ways in which food choices and eating patterns affect growth and development, body composition, and health..... 26

SKILL 3.5 Evaluating the nutritional components of a balanced diet and nutritional requirements for individuals from different age groups and with special needs (e.g., young children, vegetarians, individuals with diabetes)..... 30

SKILL 3.6 Demonstrating knowledge of how to evaluate weight management plans and dietary information in terms of sound nutritional practices and their lifelong effects on personal health 30

SKILL 3.7 Identifying principles, techniques, and methods for preparing, storing, and handling various types of food to preserve their nutritive value and to prevent food borne illnesses and other health risks 31

COMPETENCY 4.0 UNDERSTAND PRINCIPLES OF AND TECHNIQUES FOR PERSONAL CARE AND SAFETY 32

SKILL 4.1 Identifying methods for promoting self-care, safe behaviors, and injury prevention techniques during childhood..... 32

SKILL 4.2 Recognizing the importance of developing personal hygiene habits required to maintain health and prevent illness or disease 36

SKILL 4.3 Recognizing safety principles and practices for use in the home, at school, on the playground, in and around motorized and nonmotorized vehicles, on the street, in or near water, and around animals 36

SKILL 4.4 Recognizing the importance of adequate sleep, rest, exercise, and medical and dental checkups 37

SKILL 4.5 Demonstrating knowledge of universal precautions, appropriate procedures for cardiopulmonary resuscitation (CPR), use of automated external defibrillator (AED), and first-aid and emergency care for shock, bleeding, broken bones, and other injuries 38

SKILL 4.6 Demonstrating knowledge of prevention strategies and first-aid care for sports- and activities-related injuries (e.g., sprains/strains, abrasions, concussions) 43

SKILL 4.7 Identifying common causes and effects of accidents, factors that contribute to injuries (e.g., use of alcohol or drugs, fatigue), and methods of preventing various types of accidents 43

SKILL 4.8 Demonstrating knowledge of dangers and safety precautions that individuals should take in special conditions 46

SUBAREA II. DISEASE AND HEALTH-RISK PREVENTION

COMPETENCY 5.0 UNDERSTAND TYPES OF DISEASE AND THE ROLE OF DISEASE PREVENTION AND CONTROL IN MAINTAINING HEALTH 47

SKILL 5.1 Recognizing types, causes, and characteristics of diseases (e.g., chronic, degenerative, communicable, noncommunicable) and methods for detecting and preventing them 47

SKILL 5.2 Recognizing how genetics and health-related choices contribute to disease and methods for reducing risks and delaying onset of disease 49

SKILL 5.3 Demonstrating awareness of causes, symptoms, long-term effects, diagnostic tests, available treatments, and facts related to sexually transmitted diseases 50

SKILL 5.4 Recognizing known ways in which HIV/AIDS is transmitted, behaviors that increase the risk of contracting HIV/AIDS, and the effects of HIV/AIDS infection 51

SKILL 5.5	Demonstrating knowledge of methods of preventing pregnancy and sexually transmitted diseases, including HIV/AIDS, and their effectiveness	51
SKILL 5.6	Analyzing how public health policies and government regulations influence health promotion and disease prevention and how disease prevention and control are influenced by research, technology, and medical advances.....	52
COMPETENCY 6.0	UNDERSTAND THE ROLE OF PREVENTION OF TOBACCO, ALCOHOL, AND DRUG USE IN THE PROMOTION OF PERSONAL HEALTH.....	55
SKILL 6.1	Recognizing safe and appropriate use of medicine, benefits of drugs for medical purposes, and concepts and terms associated with medicines and drugs	55
SKILL 6.2	Demonstrating knowledge of the dangers of taking medicines or drugs for nonmedical purposes and the effects of drug interactions that occur with using medicines in combination.....	58
SKILL 6.3	Demonstrating knowledge of the classification and characteristics of alcohol, tobacco, and other drugs and the body's reactions to various classes of drugs	58
SKILL 6.4	Recognizing factors (e.g., media messages, peer pressure) that contribute to the use of tobacco, alcohol, and other drugs and the health risks and social costs of self-medication, alcohol and chemical dependency, and substance abuse.....	59
SKILL 6.5	Analyzing how alcohol, tobacco, and the nonmedical use of drugs affect personal goals, educational opportunities, and occupational choices	61
SKILL 6.6	Recognizing how adolescent and teen use of alcohol and drugs contributes to accidents, crime, suicide, and mortality.....	61
SKILL 6.7	Demonstrating awareness of alcohol, tobacco, and other drug dependencies as treatable diseases or conditions and of appropriate community resources for treatment	61

COMPETENCY 7.0 UNDERSTAND THE IMPORTANCE OF VIOLENCE PREVENTION AND CONFLICT RESOLUTION IN THE PROMOTION OF PERSONAL HEALTH..... 62

SKILL 7.1 Identifying potentially risky, threatening, and violent situations (e.g., abusive relationships, gang involvement) and appropriate strategies for minimizing risk factors and avoiding or reducing exposure to such situations..... 62

SKILL 7.2 Identifying the consequences associated with unsafe behavior and the use of alcohol and drugs (e.g., violence, date rape, driving under the influence) and methods for countering aggressive behavior and intimidation..... 63

SKILL 7.3 Demonstrating knowledge of effective communication and conflict-resolution skills for managing interpersonal conflicts (e.g., identifying nature of conflict, restating, collaborating, expressing feelings, active listening, using empathy) 64

SKILL 7.4 Demonstrating knowledge of appropriate strategies for preventing and managing negative social situations (e.g., refusal, resistance, negotiation, seeking help)..... 65

SKILL 7.5 Analyzing causes of conflict among youth (e.g., bullying, sexual harassment, gangs) and appropriate strategies for handling such conflicts 65

SKILL 7.6 Recognizing threats to children's safety (e.g., neglect, abuse), procedures for addressing these threats (e.g., identifying, reporting), and local support systems related to children's safety 65

SKILL 7.7 Recognizing signs, symptoms, and causes of self-destructive behavior (e.g., poor schoolwork, health problems) and identifying appropriate sources of help for individuals exhibiting these behaviors 66

COMPETENCY 8.0 UNDERSTAND THE ROLE OF CRITICAL THINKING AND DECISION-MAKING SKILLS IN REDUCING RISKS TO PERSONAL AND COMMUNITY HEALTH..... 67

- SKILL 8.1 Demonstrating knowledge of the personal and social consequences of risk-taking behaviors (e.g., injury, legal difficulties) and how personal decisions about health-related behaviors can affect oneself and others 67
- SKILL 8.2 Identifying the relationship between particular behaviors and health (e.g., the link between smoking and cancer) and the short-term and long-term benefits of a healthful lifestyle 68
- SKILL 8.3 Demonstrating knowledge of goal-setting and decision-making skills and procedures that enhance health 73
- SKILL 8.4 Recognizing how sexual decisions are influenced by external factors (e.g., environment, media, peers) and identifying techniques for resisting persuasive tactics regarding sexual involvement 74
- SKILL 8.5 Critically analyzing alcohol, tobacco, and drug advertisements and promotional tactics for developing counterarguments and resisting persuasive marketing techniques 76
- SKILL 8.6 Recognizing the use of positive behavior alternatives and sound decision making in preventing the transmission of disease 76

SUBAREA III. FAMILY AND SOCIAL RELATIONSHIPS

COMPETENCY 9.0 UNDERSTAND INTERPERSONAL RELATIONSHIPS ... 77

- SKILL 9.1 Recognizing the importance of the components of character education (e.g., respect, honesty) 77
- SKILL 9.2 Recognizing the importance of positive self-concept and psychological well-being as the basis for healthy interpersonal relationships 77
- SKILL 9.3 Recognizing the functions and expectations of various types of interpersonal relationships (e.g., positive, negative, dependent) 79

SKILL 9.4	Identifying ways in which various skills (e.g., social interaction skills, listening skills) affect interpersonal relationships	80
SKILL 9.5	Analyzing social and cultural influences on interpersonal communication and ways in which verbal and nonverbal communication skills help build and maintain positive relationships	80
SKILL 9.6	Applying knowledge of techniques for developing and maintaining friendships, the characteristics and benefits of healthy peer relationships, the effects of harmful friendships, the effects of peer pressure, and strategies for responding to peer pressure in a positive manner	81
SKILL 9.7	Recognizing factors that affect decisions about dating (e.g., cultural norms, peer pressure) and the social, emotional, intellectual, and economic aspects of dating	83
COMPETENCY 10.0 UNDERSTAND FAMILY RELATIONSHIPS AND THEIR IMPACT ON THE WELL-BEING OF INDIVIDUALS AND SOCIETY		84
SKILL 10.1	Identifying types of families, the roles of family members, the role of the family in the community, and the benefits of family participation in community activities.....	84
SKILL 10.2	Recognizing the family as a social system and the influence of families on individuals and society.....	86
SKILL 10.3	Analyzing the nature of healthy family relationships and strategies and behaviors that promote caring and respectful family relationships	86
SKILL 10.4	Applying knowledge of effective communication and coping techniques within families and ways of expressing appreciation of the diverse perspectives, needs, and characteristics of individuals and families.....	87
SKILL 10.5	Recognizing the social, cultural, and economic conditions that affect the family; community, private, and government resources and services available to assist families with a variety of disadvantaging conditions; and factors related to providing family services (e.g., sensitivity to cultural differences, confidentiality)....	87

SKILL 10.6 Demonstrating knowledge of factors and considerations related to preparation for parenthood, the responsibilities of parents, and the role of parents in guiding and directing children's behavior 88

SKILL 10.7 Recognizing considerations and procedures in family planning; stages of and physical changes that occur during pregnancy and childbirth; effects of drugs, diseases, lifestyle, and environmental conditions on prenatal health; and nutritional requirements during pregnancy 89

COMPETENCY 11.0 UNDERSTAND COMMUNITY RELATIONSHIPS, COMMUNITY HEALTH ISSUES AND COMMUNITY HEALTH-CAREER RESOURCES..... 91

SKILL 11.1 Recognizing the dynamics of different types of community groups (e.g., clubs, organizations, teams, gangs), positive and negative influences of community groups, and the nature and importance of social support systems 91

SKILL 11.2 Identifying types, sources, and characteristics of community health-care information (e.g., libraries, health agencies, health practitioners) and appropriate local health resources, clinics, or services for various health needs and problems 91

SKILL 11.3 Analyzing cost, accessibility, and availability issues related to health-care services (e.g., immunizations, family planning) 93

SKILL 11.4 Recognizing issues related to abuse, eating disorders, sexually transmitted diseases, teen pregnancy, violence, and suicide and their effects on community health 94

SKILL 11.5 Demonstrating knowledge of the influence of culture, media, environment, technology, and other factors on community health 96

SKILL 11.6 Identifying legislation, agencies, and policies (e.g., those related to smoking in public places, seat belts, helmets) that support the community, protect the public, and promote health-related practices 100

TEST II. PHYSICAL EDUCATION

SUBAREA IV. MOTOR LEARNING, MOTOR DEVELOPMENT AND MOVEMENT CONCEPTS

COMPETENCY 12.0 UNDERSTAND PRINCIPLES OF MOTOR DEVELOPMENT AND MOTOR LEARNING 101

SKILL 12.1 Recognizing principles, stages, sequences, and characteristics of motor development and motor learning 101

SKILL 12.2 Demonstrating knowledge of the impact of cognitive, social, emotional, environmental, and health factors on motor development and learning and of how physical and developmental changes affect motor performance 102

SKILL 12.3 Recognizing motor-learning concepts, such as practice, feedback, retention, transfer of learning, observational learning, and motor skill analysis 103

SKILL 12.4 Applying knowledge of developmentally appropriate practice opportunities that promote acquisition of motor skills 105

SKILL 12.5 Demonstrating knowledge of appropriate instructional prompts and cues for providing feedback to students about their motor performance 114

COMPETENCY 13.0 UNDERSTAND MOVEMENT CONCEPTS AND THEIR ROLE IN IMPROVING MOTOR SKILLS 115

SKILL 13.1 Recognizing skill themes (e.g., locomotor, nonlocomotor, manipulative) and ways to promote application of these themes through exploration of movement concepts (e.g., spatial awareness, effort, relationships)..... 115

SKILL 13.2 Demonstrating knowledge of how movement concepts are applied in the learning and development of new skills (e.g., using spatial awareness and body relationships in dance, throwing objects using opposition) 118

SKILL 13.3 Distinguishing among similarities and differences in movement skills and motor patterns..... 120

SKILL 13.4 Demonstrating knowledge of movement principles and concepts (e.g., motion, stability, balance, force projection and absorption, buoyancy, rotation, acceleration) and their application to motor skills and movement tasks..... 120

SKILL 13.5 Analyzing various movement patterns in terms of biomechanical efficiency and effectiveness..... 129

COMPETENCY 14.0 UNDERSTAND PRINCIPLES AND ACTIVITIES FOR DEVELOPING LOCOMOTOR, NONLOCOMOTOR, MANIPULATIVE, AND RHYTHMIC MOVEMENT SKILLS 131

SKILL 14.1 Identifying critical elements of basic movement patterns (i.e., locomotor, nonlocomotor, manipulative, and rhythmic movement) 131

SKILL 14.2 Recognizing locomotor skills (e.g., run, hop), nonlocomotor skills (e.g., twist, sway, static balance, weight transfer), and rhythmic/spatial compositions (e.g., dance movements and techniques)..... 131

SKILL 14.3 Identifying techniques and motor patterns for throwing, catching, dribbling, kicking, and striking skills and for combinations of manipulative skills (e.g., catch and throw)..... 131

SKILL 14.4 Recognizing combined or integrated use of locomotor, nonlocomotor, and manipulative skills and motor patterns (e.g., balancing patterns, jump and twist, pivot and throw)..... 132

SKILL 14.5 Selecting appropriate techniques, skills, sequences, equipment, and materials for complex rhythmic, aerobic, and dance activities (e.g., tumbling routines, dance sequences) 133

COMPETENCY 15.0 UNDERSTAND THE ROLE OF MOVEMENT ACTIVITIES IN THE DEVELOPMENT OF SELF-MANAGEMENT SKILLS AND POSITIVE PERSONAL AND SOCIAL BEHAVIORS 136

SKILL 15.1 Recognizing how physical education settings, activities, rules, procedures, and practices promote self-management skills (e.g., taking turns, following directions, sharing space and equipment with others) 136

SKILL 15.2 Identifying techniques and activities that promote cooperation and collaboration skills 138

SKILL 15.3 Identifying movement activities that promote awareness of etiquette and safe interaction with others 140

SKILL 15.4 Analyzing ways in which movement activities can promote positive personal attitudes and behaviors (e.g., independence, responsibility, confidence, honesty, self-control, perseverance) 140

SKILL 15.5 Analyzing ways in which movement activities can promote positive social attitudes and behaviors (e.g., teamwork, sportsmanship, leadership, consideration of others, fairness, respect for diversity, loyalty, compassion) 140

SUBAREA V. HEALTH-RELATED FITNESS

COMPETENCY 16.0 UNDERSTAND EXERCISE PHYSIOLOGY, PRINCIPLES OF FITNESS TRAINING, AND THE ROLE OF PHYSICAL FITNESS IN THE PROMOTION OF PERSONAL HEALTH..... 144

SKILL 16.1 Analyzing how major body systems produce movement, use energy, adapt to physical activity, and contribute to fitness 144

SKILL 16.2 Identifying the physiological changes that result from regular participation in physical activity 145

SKILL 16.3 Recognizing the components of health-related physical fitness, activities and strategies for achieving and maintaining physical fitness, and the relationship between physical activity and the prevention of disease 145

SKILL 16.4 Distinguishing among types, components, and principles of physical fitness training 146

SKILL 16.5 Recognizing differences between health- and skill-related fitness, ranges of individual variation, and levels of readiness for fitness 149

SKILL 16.6 Demonstrating awareness of resources, time, cost, accessibility, media influences, and other factors that affect participation in fitness activities..... 155

**COMPETENCY 17.0 UNDERSTAND PRINCIPLES, TECHNIQUES AND
ACTIVITIES FOR DEVELOPING AND MAINTAINING
HEALTHY LEVELS OF CARDIOVASCULAR FITNESS**
..... 158

SKILL 17.1 Demonstrating knowledge of principles, skills, and activities for cardiovascular strength and endurance conditioning 158

SKILL 17.2 Demonstrating knowledge of techniques for assessing and monitoring cardiovascular endurance levels..... 160

SKILL 17.3 Recognizing appropriate levels of intensity, frequency, and duration in cardiovascular strength and endurance conditioning activities
..... 162

SKILL 17.4 Selecting appropriate cardiovascular fitness activities for various developmental levels and purposes 162

SKILL 17.5 Recognizing the benefits of regular participation in cardiovascular fitness activities and strategies for integrating cardiovascular fitness activities into daily life 163

**COMPETENCY 18.0 UNDERSTAND PRINCIPLES, TECHNIQUES, AND
ACTIVITIES FOR DEVELOPING AND MAINTAINING
FLEXIBILITY AND MUSCULAR STRENGTH AND
ENDURANCE** 164

SKILL 18.1 Recognizing the components of flexibility (e.g., muscles, joints, ligaments, tendons) and principles, techniques, and activities for promoting flexibility of the major joints and areas of the body 164

SKILL 18.2 Recognizing the major muscle groups and principles, techniques, and activities for developing strength and endurance of the major muscle groups and areas of the body..... 166

SKILL 18.3 Identifying types and uses of equipment for flexibility training and progressive-resistance exercise 168

SKILL 18.4 Evaluating the safety and effectiveness of various types of flexibility and strength training and of various exercises 182

SKILL 18.5 Recognizing the benefits of regular participation in flexibility and strength training activities and strategies for integrating these activities into daily life 185

COMPETENCY 19.0 UNDERSTAND ASSESSMENT OF HEALTH-RELATED FITNESS AND PRINCIPLES AND PROCEDURES FOR DEVELOPING PERSONAL FITNESS PLANS BASED ON ASSESSMENT RESULTS 186

SKILL 19.1 Recognizing uses, components, characteristics, advantages, limitations, and techniques associated with various types of fitness assessment methods and instruments (e.g., FITNESSGRAM, peer assessment) 186

SKILL 19.2 Identifying developmentally appropriate assessment strategies for various fitness goals, purposes, and situations 190

SKILL 19.3 Demonstrating knowledge of how to use fitness assessment results to establish individual goals for health-related fitness 193

SKILL 19.4 Interpreting fitness test results to identify strengths and weaknesses in relation to fitness components and to select fitness activities for a personal fitness plan 194

SKILL 19.5 Applying knowledge of principles and techniques for designing and implementing individualized fitness and weight management plans (e.g., setting realistic short-term goals, monitoring caloric intake and expenditure) 194

SKILL 19.6 Recognizing ways in which activity participation patterns change throughout the life span and strategies for motivating individuals to persevere in personal fitness plans 195

SUBAREA VI. SPORTS AND LIFETIME ACTIVITIES

COMPETENCY 20.0 UNDERSTAND TECHNIQUES, SKILLS, RULES, STRATEGIES, ETIQUETTE, EQUIPMENT, AND SAFETY PRACTICES FOR INDIVIDUAL, DUAL, AND LIFETIME SPORTS AND ACTIVITIES (E.G., BADMINTON, BOWLING, GOLF, TUMBLING, TENNIS, TRACK AND FIELD) 198

SKILL 20.1 Recognizing skills, rules, strategies, and performance assessment techniques for individual, dual, and lifetime sports and activities 198

SKILL 20.2	Demonstrating knowledge of appropriate etiquette, interactions, care of equipment, and safety practices for individual, dual, and lifetime sports and activities.....	219
SKILL 20.3	Identifying critical elements essential to competent performance in activities such as badminton, bowling, golf, tumbling, tennis, and track and field	220
SKILL 20.4	Demonstrating knowledge of principles of training and conditioning appropriate to specific individual, dual, and lifetime sports and activities.....	221
COMPETENC 21.0	UNDERSTAND TECHNIQUES, SKILLS, RULES, STRATEGIES, ETIQUETTE, EQUIPMENT, AND SAFETY PRACTICES FOR TEAM SPORTS AND ACTIVITIES (E.G., BASKETBALL, FLAG FOOTBALL, SOCCER, SOFTBALL, TEAM HANDBALL, VOLLEYBALL)	223
SKILL 21.1	Recognizing skills, rules, strategies, and performance assessment techniques for team sports and activities.....	223
SKILL 21.2	Demonstrating knowledge of appropriate etiquette, interactions, care of equipment, and safety practices for team sports and activities.....	236
SKILL 21.3	Identifying critical elements essential to competent performance in activities such as basketball, flag football, soccer, softball, team handball, and volleyball	237
SKILL 21.4	Demonstrating knowledge of principles of training and conditioning appropriate to specific team sports and activities	237
SKILL 21.5	Analyzing the effect of participation in physical activity in promoting appreciation of cultural, ethnic, gender, and physical diversity in team sports and activities	238

COMPETENCY 22.0 UNDERSTAND TECHNIQUES, SKILLS, RULES, STRATEGIES, ETIQUETTE, EQUIPMENT, AND SAFETY PRACTICES FOR OUTDOOR ACTIVITIES (E.G., CAMPING, ORIENTEERING, ROPES COURSES, GROUP INITIATED ACTIVITIES)	239
SKILL 22.1 Recognizing skills, rules, strategies, and performance assessment techniques for activities such as camping, orienteering, ropes courses, and group-initiated activities.....	239
SKILL 22.2 Demonstrating knowledge of appropriate etiquette, interactions, care of equipment, injury prevention techniques, and safety practices for outdoor, adventure, and group-initiated activities....	244
SKILL 22.3 Identifying critical elements and environmental considerations related to outdoor, adventure, and group-initiated activities (e.g., checking weather, equipment safety)	244
 COMPETENCY 23.0 UNDERSTAND TECHNIQUES, SKILLS, RULES, STRATEGIES, ETIQUETTE, AND SAFETY PRACTICES FOR CREATIVE MOVEMENT AND DANCE (E.G., FOLK, SOCIAL, SQUARE, LINE, MODERN, AEROBIC)	 245
SKILL 23.1 Recognizing skills, rules, strategies, sequences, and performance assessment techniques for creative movement and dance	245
SKILL 23.2 Demonstrating knowledge of appropriate etiquette, interactions, injury prevention techniques, and safety practices for creative movement and dance	248
SKILL 23.3 Identifying critical elements essential to competent performance in creative movement and dance	248
SKILL 23.4 Analyzing the effect of participation in dance in promoting personal expression and appreciation of cultural, ethnic, gender, and physical diversity	248
 Annotated List of Resources	 251
Sample Test	253
Answer Key	279
Rationales with Sample Questions	280
Sample Written Assignments	320
