		pg.
<u>SUBAREA I.</u>		
<u>PROCESSES AND APPLICATIONS</u>		
Competency 01	Understand how to communicate mathematical content and concepts, and develop and utilize a variety of problem-solving techniques	1
Competency 02	Understand how to apply appropriate reasoning techniques to concepts, procedures, and conjectures, and make connections with and among the various branches of mathematics and other disciplines	3
Competency 03	Understand how to select, integrate, and use appropriate technologies.....	4
<u>SUBAREA II.</u>		
<u>NUMBER SENSE AND MEASUREMENT</u>		
Competency 04	Understand the concepts of number, number theory, and numeration systems.....	5
Competency 05	Understand properties of the real and complex number systems as they apply to algorithms of operations.	9
Competency 06	Understand Customary, metric and nonstandard measurement.....	19
Competency 07	Understand procedures for computing or estimating measures of Multi-dimensional objects.....	23
<u>SUBAREA III.</u>		
<u>ALGEBRAIC PATTERNS, SYMBOLS, FUNCTIONS, AND MODELS</u>		
Competency 08	Understand concepts, representations, and relationships of variables and patterns	27
Competency 09	Understand and apply concepts and representations of linear relations and functions	34
Competency 10	Understand and apply concepts and representations of quadratic relations(including conic sections) and functions	56
