

TEACHER CERTIFICATION STUDY GUIDE

TABLE OF CONTENTS

DOMAIN I.

LANGUAGE ARTS

COMPETENCY 1.0 UNDERSTAND THE EFFECTIVE EXPRESSION OF INFORMATION AND IDEAS THROUGH ORAL AND VISUAL COMMUNICATION	1
1.1 Identifying methods of organizing and presenting ideas, information, and feelings when speaking to diverse audiences and for various purposes	1
1.2 Recognizing elements of nonverbal communication including their uses in different cultural contexts for specific audiences and/or purposes	2
1.3 Recognizing elements of visual language	2
1.4 Demonstrating knowledge of principles of active listening and of barriers to effective listening.....	5
1.5 Demonstrating knowledge of structures of oral, visual, and multimedia presentations.....	6
1.6 Recognizing the principles of using spoken and visual language for a variety of purposes.....	7
COMPETENCY 2.0 UNDERSTAND THE EFFECTIVE EXPRESSION OF INFORMATION AND IDEAS THROUGH WRITING AND THE APPROPRIATE ELEMENTS AND CONVENTIONS OF STANDARD WRITTEN ENGLISH	8
2.1 Demonstrating knowledge of elements of the writing process and techniques for taking notes and developing drafts	8
2.2 Describing characteristics of and purposes for different writing forms and modes	9
2.3 Recognizing elements of sentence and paragraph structure and formatting	11
2.4 Demonstrating knowledge of the use of introductions, main ideas, transitions, conclusions, and other forms of text organization in writing	15
2.5 Applying elements of appropriate grammar and usage	16
2.6 Applying elements of appropriate punctuation and capitalization.....	22

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 3.0 UNDERSTAND FEATURES AND FORMS OF LITERATURE	27
3.1 Identifying characteristics of literary forms and genres	27
3.2 Identifying characteristics of genres of nonfiction	28
3.3 Identifying characteristics and functions of literary elements and devices	29
3.4 Recognizing influences of cultural, social, biographical, and historical factors on the creation and development of literature	31
3.5 Demonstrating knowledge of genres, themes, authors, and works of literature written for children and adolescents	38
3.6 Recognizing influence of nontraditional literary forms	40
COMPETENCY 4.0 UNDERSTAND RESEARCH METHODS	42
4.1 Demonstrating knowledge of strategies for developing topics, questions, and purposes for inquiry prior to planning for and conducting research	42
4.2 Demonstrating knowledge of strategies for gathering, analyzing, synthesizing, and evaluating data from a variety of sources	43
4.3 Analyzing ethical issues related to the use of resources, human subjects, materials, and the Internet	44

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN II.

SOCIAL SCIENCE

**COMPETENCY 5.0 UNDERSTAND IMPORTANT THEORIES, CONCEPTS,
AND TERMINOLOGY RELATED TO CIVICS AND
GOVERNMENT 46**

- 5.1 Recognizing the purposes of government and the basic constitutional principles of the U.S. government as a republic 46
- 5.2 Identifying the responsibilities and interrelationships among national, state, and local governments in the United States 47
- 5.3 Identifying roles and powers of the executive, legislative, and judicial branches 48
- 5.4 Identifying the roles, rights, responsibilities, and participatory obligations of U.S. citizens, resident aliens, immigrants, and refugees 49
- 5.5 Recognizing different ways that governments are organized and hold power, and ways in which individuals, groups, and international organizations influence government 50
- 5.6 Recognizing ways in which the U.S. government relates to and interacts with other nations 52

**COMPETENCY 6.0 UNDERSTAND IMPORTANT THEORIES, CONCEPTS,
AND TERMINOLOGY RELATED TO ECONOMICS 54**

- 6.1 Recognizing the economic concepts of scarcity and supply and demand, and the purposes and functions of currency in the economy 54
- 6.2 Recognizing that trade-offs and opportunity costs are decisions that can be measured in terms of costs and benefits 55
- 6.3 Identifying the underlying philosophies and characteristics of various economic systems, including that of the U.S. economy 56
- 6.4 Identifying the role of government and institutions in an economy, and ways in which the U.S. economy relates to and interacts with the economies of other nations 58
- 6.5 Identifying the knowledge and skills necessary to make reasoned and responsible financial decisions as a consumer, producer, saver, and investor in a market economy 59

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 7.0 UNDERSTAND IMPORTANT THEORIES, CONCEPTS, AND TERMINOLOGY RELATED TO GEOGRAPHY 61

- 7.1 Applying knowledge of spatial concepts of geography 61
- 7.2 Applying knowledge of the purpose of maps, globes, and geographic tools, and locating major physical and human-constructed features of the earth 63
- 7.3 Applying knowledge of physical and population characteristics of places and regions, the processes that have shaped them, and their geographic significance 64
- 7.4 Describing the distribution and movement of people, ideas, and products, and evaluating the consequences of population changes resulting from economic, political, cultural, and/or environmental factors 66
- 7.5 Identifying how humans affect physical environments, and how physical characteristics and changes in the environment affect human activities 67

COMPETENCY 8.0 UNDERSTAND IMPORTANT EVENTS, CONCEPTS, AND TERMINOLOGY RELATED TO WORLD HISTORY 69

- 8.1 Recognizing chronological relationships and patterns of change and continuity over time in world history 69
- 8.2 Demonstrating knowledge of early civilizations, including the development of empires and kingdoms 69
- 8.3 Recognizing the importance and lasting influence of events, issues, and developments in world history 71
- 8.4 Recognizing the importance and lasting influence of major world conflicts 81
- 8.5 Analyzing cause-and-effect relationships in world history 85
- 8.6 Analyzing various perspectives and interpretations of events, issues, and developments in world history 86

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 9.0 UNDERSTAND IMPORTANT EVENTS, CONCEPTS, AND TERMINOLOGY RELATED TO THE HISTORY OF THE UNITED STATES AND THE STATE OF OREGON	88
9.1 Recognizing chronological relationships and patterns of change and continuity over time in U.S. and Oregon history	88
9.2 Recognizing the importance and lasting influence of people, events, issues, and developments in Oregon history.....	110
9.3 Recognizing the importance and lasting influence of events, issues, and developments in U.S. history.....	112
9.4 Analyzing cause-and-effect relationships in the history of the United States and Oregon	118
9.5 Analyzing various perspectives and interpretations of issues and events in U.S. and Oregon history.....	119
9.6 Demonstrating knowledge of strategies for interpreting events, issues, and developments in local history	120
COMPETENCY 10.0 UNDERSTAND METHODS OF SOCIAL SCIENCE RESEARCH AND ANALYSIS	121
10.1 Recognizing methods for analyzing an event, issue, problem, or phenomenon and its significance to society	121
10.2 Identifying strategies for gathering, using, and evaluating information to support analysis and conclusions.....	121
10.3 Identifying approaches for analyzing an event, issue, problem, or phenomenon from multiple perspectives.....	122
10.4 Recognizing methods for analyzing characteristics, causes, and consequences of an event, issue, problem, or phenomenon	123
10.5 Recognizing ways of comparing and evaluating outcomes, responses, or solutions, and using the results to reach conclusions and drive further inquiry	123

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN III.

THE ARTS

**COMPETENCY 11.0 UNDERSTAND TECHNIQUES AND MATERIALS
ASSOCIATED WITH THE VISUAL ARTS AND THE
CULTURAL, POLITICAL, AND HISTORICAL
SIGNIFICANCE OF THE VISUAL ARTS 124**

- 11.1 Recognizing basic terms and elements of the visual arts..... 124
- 11.2 Identifying media, techniques, and processes used in the visual arts 125
- 11.3 Identifying how cultural, political, and historical contexts influence works
from the visual arts..... 126

**COMPETENCY 12.0 UNDERSTAND TECHNIQUES AND MATERIALS
ASSOCIATED WITH THEATRE AND DANCE AND THE
CULTURAL, POLITICAL, AND HISTORICAL
SIGNIFICANCE OF THEATRE AND DANCE 127**

- 12.1 Identifying the basic nature, materials, elements, and means of
communicating in theatre 127
- 12.2 Identifying elements and s in performing dance 129
- 12.3 Recognizing the role of theatre, film, television, and electronic media in the
past and the present 129
- 12.4 Recognizing elements of dance from different styles or traditions 131
- 12.5 Identifying connections among dance, theatre, and other disciplines taught
in school..... 133

**COMPETENCY 13.0 UNDERSTAND TECHNIQUES AND MATERIALS
ASSOCIATED WITH MUSIC AND THE CULTURAL,
POLITICAL, AND HISTORICAL SIGNIFICANCE OF
MUSICAL GENRES AND STYLES 134**

- 13.1 Recognizing basic principles of music..... 134
- 13.2 Identifying distinguishing characteristics of musical genres and styles from
various cultures 135
- 13.3 Recognizing the roles and functions of music in different cultures 136
- 13.4 Identifying connections between music and other arts and other disciplines
taught in school 137

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN IV.

READING INSTRUCTION

COMPETENCY 14.0 UNDERSTAND PHONOLOGICAL AND PHONEMIC AWARENESS	139
14.1 Demonstrating knowledge of phonological awareness	139
14.2 Demonstrating knowledge of phonemic awareness	140
14.3 Demonstrating knowledge of the significance of phonological and phonemic awareness in emergent literacy development and strategies for promoting students' phonological and phonemic awareness	141
14.4 Demonstrating knowledge of phonemic awareness	145
COMPETENCY 15.0 UNDERSTAND THE USE OF PHONICS AND OTHER WORD-IDENTIFICATION STRATEGIES	146
15.1 Recognizing how beginning readers learn to apply knowledge of letter-sound correspondence to decode simple words	146
15.2 Describing how beginning readers use knowledge of common consonant-vowel patterns in single-syllable words to decode unfamiliar words through analogy with known words	151
15.3 Demonstrating knowledge of syllabication as a technique for identifying unfamiliar words containing more than one syllable	155
15.4 Applying knowledge of structural analysis as a word-identification strategy	159
15.5 Recognizing strategies for identifying high-frequency sight words with irregular spellings	161
15.6 Recognizing how readers use context, including semantic and syntactic clues, to help identify words, including words with multiple meanings	163
15.7 Demonstrating knowledge of curriculum materials and effective instruction in word-identification strategies for learners at various stages of literacy and from different cultural and language backgrounds	165

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 16.0 UNDERSTAND THE DEVELOPMENT OF VOCABULARY KNOWLEDGE AND SKILLS	168
16.1 Demonstrating knowledge of criteria for selecting appropriate vocabulary words to increase students' vocabulary knowledge.....	168
16.2 Demonstrating knowledge of a range of strategies for promoting and reinforcing students' oral and written vocabulary knowledge	169
16.3 Recognizing ways to help students make effective use of reference sources to clarify understanding of a word's denotative and connotative meanings.....	171
16.4 Demonstrating knowledge of the role of vocabulary development in reading comprehension.....	172
16.5 Demonstrating knowledge of curriculum materials and effective instruction in vocabulary knowledge and s for learners at various stages of literacy and from different cultural and language backgrounds	175
COMPETENCY 17.0 UNDERSTAND READING COMPREHENSION AND FLUENCY	177
17.1 Demonstrating knowledge of literal comprehension, inferential comprehension, and evaluative comprehension	177
17.2 Applying knowledge of strategies for promoting students' literal, inferential, and evaluative comprehension.....	178

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 18.0 UNDERSTAND READING COMPREHENSION STRATEGIES FOR LITERARY AND INFORMATIONAL TEXT	182
18.1 Recognizing how to apply comprehension strategies before reading, during reading, and after reading to promote understanding of literary and informational text.....	182
18.2 Demonstrating knowledge of literary responses.....	184
18.3 Demonstrating knowledge of common patterns of organization in informational text.....	185
18.4 Describing the use of writing activities to promote comprehension of informational text.....	185
18.5 Demonstrating knowledge of curriculum materials and effective instruction in reading comprehension of literary and informational text for learners at various stages of literacy and from different cultural and language backgrounds.....	187

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN V.

MATHEMATICS

COMPETENCY 19.0 UNDERSTAND MATHEMATICAL COMMUNICATION 188

19.1 Interpreting mathematical terminology, symbols, and representations..... 188

19.2 Using visual, numeric, and symbolic representations to communicate mathematical concepts 189

19.3 Connecting everyday language to mathematical language and symbols..... 190

19.4 Converting among visual, numeric, and symbolic representations..... 190

COMPETENCY 20.0 UNDERSTAND NUMBERS, NUMBER THEORY, AND NUMERATION..... 191

20.1 Demonstrating knowledge of the concepts of place value, prime numbers, multiples, factors, and integer numbers 191

20.2 Recognizing numbers represented by exponential and scientific notation in context 195

20.3 Applying concepts of numbers and numeration to compare, order, and round up or down 197

20.4 Identifying equivalent forms of fractions, decimals, and percentages 198

COMPETENCY 21.0 UNDERSTAND MATHEMATICAL PROBLEM SOLVING 200

21.1 Making use of pictures, models, charts, graphs, and symbols as tools of mathematical problem solving..... 200

21.2 Identifying and using relevant information in a problem to solve it 201

21.3 Recognizing and applying multiple solution strategies to problem solving 201

21.4 Evaluating calculations and problem-solving strategies to verify the accuracy of the results 202

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 22.0 UNDERSTAND METHODS OF MATHEMATICAL OPERATIONS, CALCULATION, AND ESTIMATION	203
22.1 Using the basic four operations with variables and numbers	203
22.2 Recognizing relationships among mathematical operations.....	204
22.3 Applying properties of real numbers and the number system	205
22.4 Making calculations with whole numbers, decimals, fractions, and integer numbers	207
22.5 Applying methods of approximation and estimation	220
22.6 Identifying strategies for estimating solutions and for evaluating the accuracy of estimated solutions	221
22.7 Recognizing methods and tools for computing with numbers	223
COMPETENCY 23.0 UNDERSTAND AND APPLY CONCEPTS AND METHODS OF MEASUREMENT	224
23.1 Identifying and using appropriate procedures and units of measurement for problems involving length, area, volume, weight, angles, time, and temperature.....	224
23.2 Identifying and using appropriate measurement tools in various situations	233
23.3 Demonstrating knowledge of conversions within and between measurement systems	235
23.4 Identifying approaches to direct measurement through standard and nonstandard units and indirect measurement through the use of algebra or geometry	236

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 24.0 UNDERSTAND PATTERNS, RELATIONSHIPS, AND ALGEBRAIC CONCEPTS	238
24.1 Defining and describing patterns and relationships using various representations	238
24.2 Solving linear and nonlinear equations and inequalities.....	240
24.3 Identifying algebraic concepts of relation and function to analyze mathematical relationships.....	246
24.4 Representing relationships among variables using words, tables, graphs, and rules	247
24.5 Making use of algebraic functions to plot points, describe graphs, determine slope, and extrapolate	247
COMPETENCY 25.0 UNDERSTAND AND APPLY PRINCIPLES AND PROPERTIES OF GEOMETRY	253
25.1 Recognizing the geometric properties of and relationships between two- and three-dimensional figures	253
25.2 Applying knowledge of basic geometric concepts	257
25.3 Identifying and measuring component parts of geometric figures	262
25.4 Applying knowledge of symmetry and transformations of geometric figures.....	265
25.5 Making use of geometric models and properties of figures to solve problems	267
COMPETENCY 26.0 UNDERSTAND CONCEPTS AND APPLICATIONS OF PROBABILITY	268
26.1 Recognizing real-world applications of probabilities and their consequences.....	268
26.2 Recognizing expressions of probabilities as fractions, ratios, and decimals.....	269
26.3 Determining theoretical probabilities and making predications based on them	269
26.4 Determining probabilities of dependent and independent events.....	272

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 27.0 UNDERSTAND CONCEPTS AND APPLICATIONS OF STATISTICS	273
27.1 Applying knowledge of methods for organizing data in a variety of formats	273
27.2 Interpreting statistical data expressed in various formats.....	276
27.3 Identifying assumptions, trends, and patterns in data	278
27.4 Recognizing limitations of data and models and their use in drawing conclusions	281
27.5 Describing data using standard measures	281
COMPETENCY 28.0 UNDERSTAND THE NATURE AND HISTORIES OF MATHEMATICS.....	284
28.1 Recognizing the histories and importance of mathematical ideas and the contribution of various cultures and individuals to mathematical knowledge.....	284
28.2 Identifying inherent values of mathematics	285
28.3 Identifying the roles and importance of mathematics in everyday life and in various occupations	291

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN VI.

SCIENCE

COMPETENCY 29.0 UNDERSTAND CONCEPTS AND PRINCIPLES OF PHYSICAL SCIENCE 293

- 29.1 Recognizing the structure and properties of matter..... 293
- 29.2 Identifying chemical and physical changes 294
- 29.3 Identifying fundamental forces and the motions resulting from them 295
- 29.4 Recognizing concepts of conservation and transfer of energy, and analyzing the interaction of energy and matter..... 296
- 29.5 Recognizing basic principles of electricity and magnetism..... 298
- 29.6 Identifying the characteristics of light and sound..... 301

COMPETENCY 30.0 UNDERSTAND CONCEPTS AND PRINCIPLES OF LIFE SCIENCE 304

- 30.1 Recognizing the characteristics, structure, and functions of organisms 304
- 30.2 Analyzing the life cycles of common organisms 306
- 30.3 Analyzing the transmission of traits in living things 306
- 30.4 Recognizing the interdependence of organisms in their natural environment 309
- 30.5 Analyzing the effects of species, including humans, on an ecosystem 310
- 30.6 Recognizing the diversity of organisms and the adaptations that help organisms survive 310

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 31.0 UNDERSTAND CONCEPTS AND PRINCIPLES OF EARTH AND SPACE SCIENCE	312
31.1 Recognizing the structure of Earth's lithosphere, hydrosphere, and atmosphere	312
31.2 Identifying the properties of Earth's materials, and the availability and use of those materials.....	314
31.3 Analyzing changes occurring within Earth's lithosphere, hydrosphere, and atmosphere and interactions among those systems	315
31.4 Analyzing the relationships among the Earth, sun, moon, and solar system	316
31.5 Recognizing changes that have occurred in Earth's history	318
COMPETENCY 32.0 UNDERSTAND CONCEPTS AND PRINCIPLES OF SCIENTIFIC INQUIRY AND INVESTIGATION	321
32.1 Demonstrating knowledge of methods used for making observations and for formulating and expressing scientific questions or hypotheses to be investigated based on the observations	321
32.2 Identifying methods for conducting scientific investigations to address and explain questions or hypotheses	322
32.3 Identifying strategies for collecting, organizing, analyzing, and displaying scientific data	323
32.4 Demonstrating knowledge of systems of measurement used in science	324
32.5 Identifying strategies for summarizing and analyzing scientific information, including possible sources of error, and suggesting reasonable and accurate interpretations and implications	324

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 33.0 UNDERSTAND THE RELATIONSHIPS AMONG SCIENCE, TECHNOLOGY, AND SOCIETY	326
33.1 Analyzing the effects of science and technology on society.....	326
33.2 Analyzing the influence of society on science and technology.....	326
33.3 Identifying the advantages and risks of scientific and technological changes.....	328
33.4 Identifying career opportunities in the fields of science and technology	330
COMPETENCY 34.0 UNDERSTAND THE NATURE AND HISTORY OF SCIENCE	332
34.1 Recognizing the history of important scientific ideas and the contributions of various cultures and individuals to scientific knowledge.....	332
34.2 Recognizing unifying concepts of science.....	334
34.3 Identifying inherent values of science	335
34.4 Recognizing the process and importance of peer review of scientific findings.....	336

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN VII - HEALTH AND PHYSICAL EDUCATION

**COMPETENCY 35.0 UNDERSTAND BASIC PRINCIPLES AND PRACTICES
RELATED TO PERSONAL AND COMMUNITY HEALTH
AND SAFETY 338**

- 35.1 Recognizing basic processes of human growth, development, and body systems 338
- 35.2 Identifying strategies for maintaining personal mental and physical health 350
- 35.3 Recognizing the role culture plays in mental and physical well being 351
- 35.4 Recognizing common health issues of children, the signs and symptoms of health problems, and how they can be prevented or treated..... 352
- 35.5 Recognizing the influence of various factors on personal and community health and safety 354
- 35.6 Recognizing the importance of positive interventions on personal and community health and safety..... 356

**COMPETENCY 36.0 UNDERSTAND BASIC PRINCIPLES AND PRACTICES
RELATED TO LIFETIME PHYSICAL FITNESS 358**

- 36.1 Identifying components of fitness 358
- 36.2 Identifying activities that promote lifetime physical fitness 359
- 36.3 Recognizing ways to prevent or lower the risk of disease 361
- 36.4 Recognizing the influence of media on health choices, body image, and self-confidence 361
- 36.5 Recognizing consequences of substance use and abuse..... 362
- 36.6 Identifying strategies for promoting students' ability to use s that contribute to good health 363

TEACHER CERTIFICATION STUDY GUIDE

COMPETENCY 37.0 UNDERSTAND BASIC PRINCIPLES AND PRACTICES OF PHYSICAL EDUCATION	365
37.1 Identifying basic locomotor patterns.....	365
37.2 Recognizing principles of training, conditioning, and practicing for specific physical activities	366
37.3 Identifying safety practices associated with physical activities.....	369
37.4 Recognizing appropriate rules and strategies for physical activities, cooperative and competitive games, and sports	372
37.5 Demonstrating knowledge of physical activities, games, and sports for individuals at various activity levels.....	379
37.6 Recognizing cross-cultural origins of physical activities, games, and sports	389
Sample Test: Language Arts, Social Science, The Arts, Reading	392
Answer Key: Language Arts, Social Science, The Arts, Reading	407
Rationales with Sample Questions: Language Arts, Social Science, The Arts, Reading	408
Constructed Response Sample Questions: Language Arts, Reading	418
Sample Test: Math, Science, Physical Education	420
Answer Key: Math, Science, Physical Education	433
Rationales with Sample Questions: Math, Science, Physical Education	434
Constructed Response Sample Questions: Math, Science	443
