
TEACHER CERTIFICATION STUDY GUIDE

TABLE OF CONTENTS

COMPETENCY #	PG #
<u>DOMAIN I. NUMBER CONCEPTS</u>	
Competency 1. The teacher understands the real number system and its structure, operations, algorithms, and representations	1
Competency 2. The teacher understands the complex number system and its structure, operations, algorithms, and representations	5
Competency 3. The teacher understands number theory concepts and principles and uses numbers to model and solve problems in a variety of situations	10
<u>DOMAIN II. PATTERNS AND ALGEBRA</u>	
Competency 4. The teacher uses patterns to model and solve problems and formulate conjectures	17
Competency 5. The teacher understands attributes of functions, relations, and their graphs	23
Competency 6. The teacher understands linear and quadratic functions, analyzes their algebraic and graphical properties, and uses them to model and solve problems	34
Competency 7. The teacher understands polynomial, rational, radical, absolute value, and piecewise functions, analyzes their algebraic and graphical properties, and uses them to model and solve problems	44
Competency 8. The teacher understands exponential and logarithmic functions, analyzes their algebraic and graphical properties, and uses them to model and solve problems	64
Competency 9. The teacher understands trigonometric and circular functions, analyzes their algebraic and graphical properties, and uses them to model and solve problems	70
Competency 10. The teacher understands and solves problems using differential and integral calculus	80

TEACHER CERTIFICATION STUDY GUIDE

DOMAIN III. GEOMETRY AND MEASUREMENT

Competency 11. The teacher understands measurement as a process	94
Competency 12. The teacher understands geometries, in particular Euclidean geometry, as axiomatic systems	109
Competency 13. The teacher understands the results, uses, and applications of Euclidean geometry	122
Competency 14. The teacher understands coordinate, transformational, and vector geometry and their connections	137

DOMAIN IV. PROBABILITY AND STATISTICS

Competency 15. The teacher understands how to use appropriate graphical and numerical techniques to explore data, characterize patterns, and describe departures from patterns.....	157
Competency 16. The teacher understands concepts and applications of probability	170
Competency 17. The teacher understands the relationships among probability theory, sampling, and statistical inference, and how statistical inference is used in making and evaluating predictions	178

DOMAIN V. MATHEMATICAL PROCESSES AND PERSPECTIVES

Competency 18. The teacher understands mathematical reasoning and problem solving	189
Competency 19. The teacher understands mathematical connections both within and outside of mathematics and how to communicate mathematical ideas and concepts	196

DOMAIN VI. MATHEMATICAL LEARNING, INSTRUCTION, AND ASSESSMENT

Competency 20. The teacher understands how children learn mathematics and plans, organizes, and implements instruction using knowledge of students, subject matter, and statewide curriculum (Texas Essential Knowledge and Skills [TEKS])	202
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

TEACHER CERTIFICATION STUDY GUIDE

Competency 21. The teacher understands assessment and uses a variety of formal and informal assessment techniques to monitor and guide mathematics instruction and to evaluate student progress 204

ANSWER KEY TO PRACTICE PROBLEMS 205

SAMPLE TEST 210

ANSWER KEY 222

RATIONALES FOR SAMPLE QUESTIONS 223
