## **DOMAIN I. SCIENTIFIC INQUIRY AND PROCESSES**

- Competency 001** The teacher understands how to select and manage learning activities to ensure the safety of all students and the correct use and care of organisms, natural resources, materials, equipment, and technologies ..... 1
- Competency 002** The teacher understands the nature of science, the process of scientific inquiry, and the unifying concepts that are common to all sciences ..... 6
- Competency 003** The teacher understands the history of science, how science impacts the daily lives of students, and how science interacts with and influences personal and societal decisions ..... 8

## **DOMAIN II. CELL STRUCTURE AND PROCESSES**

- Competency 004** The teacher understands the structure and function of biomolecules ..... 9
- Competency 005** The teacher understands that cells are the basic structures of living things and have specialized parts that perform specific functions ..... 16
- Competency 006** The teacher understands how cells carry out life processes..... 26
- Competency 007** The teacher understands how specialized cells, tissues, organs, organ systems, and organisms grow and develop ..... 34

## **DOMAIN III. HEREDITY AND EVOLUTION OF LIFE**

- Competency 008** The teacher understands the structures and functions of nucleic acids in the mechanisms of genetics ..... 36
- Competency 009** The teacher understands the continuity and variations of traits from one generation to the next ..... 42

**Competency 010** The teacher understands the theory of biological evolution ..... 54

**Competency 011** The teacher understands evidence for evolutionary change during Earth’s history..... 59

**DOMAIN IV. DIVERSITY OF LIFE**

---

**Competency 012** The teacher understands similarities and differences between living organisms and how taxonomic systems are used to organize and interpret the diversity of life ..... 61

**Competency 013** The teacher understands that, at all levels of nature, living systems are found within other living systems, each with its own boundaries and limits ..... 63

**Competency 014** The teacher understands the processes by which organisms maintain homeostasis..... 78

**Competency 015** The teacher understands the relationship between biology and behavior ..... 79

**DOMAIN V. INTERDEPENDENCE OF LIFE  
AND ENVIRONMENTAL SYSTEMS**

---

**Competency 016** The teacher understands the relationships between abiotic and biotic factors of terrestrial and aquatic ecosystems, habitats, and biomes, including the flow of matter and energy ..... 80

**Competency 017** The teacher understands the interdependence and interactions of living things in terrestrial and aquatic ecosystems..... 88

**Competency 018** The teacher understands the relationship between carrying capacity and changes in populations and ecosystems..... 91

**DOMAIN VI. SCIENCE LEARNING, INSTRUCTION AND ASSESSMENT**

<b>Competency 019</b>	<b>The teacher understands research-based theoretical and practical knowledge about teaching science, how students learn science, and the role of scientific inquiry in science instruction .....</b>	<b>94</b>
<b>Competency 020</b>	<b>The teacher knows how to monitor and assess science learning in laboratory, field, and classroom settings .....</b>	<b>96</b>
<b>Sample Essay .....</b>		<b>99</b>
<b>Sample Test .....</b>		<b>106</b>
<b>Answer Key .....</b>		<b>135</b>
<b>Rigor Table .....</b>		<b>136</b>
<b>Rationales with Sample Questions .....</b>		<b>137</b>
