

Table of Contents

DOMAIN I LANGUAGE ARTS 1

COMPETENCY 1 UNDERSTAND THE EFFECTIVE EXPRESSION OF INFORMATION AND IDEAS THROUGH ORAL AND VISUAL COMMUNICATION 3

Skill 1.1: Identify methods of organizing and presenting ideas, information, and feelings when speaking to diverse audiences and for various purposes	3
Skill 1.2: Recognize elements of nonverbal communication including their uses in different cultural contexts for specific audiences and/or purposes	4
Skill 1.3: Recognize elements of visual language (<i>e.g., symbols, shapes, colors</i>)	5
Skill 1.4: Demonstrate knowledge of principles of active listening and of barriers to effective listening	5
Skill 1.5: Demonstrate knowledge of structures of oral, visual, and multimedia presentations (<i>e.g., sequence, connections, transitions</i>)	6
Skill 1.6: Recognize the principles of using spoken and visual language for a variety of purposes (<i>e.g., learning, enjoyment, persuasion, exchanging ideas</i>)	8

COMPETENCY 2 UNDERSTAND THE EFFECTIVE EXPRESSION OF INFORMATION AND IDEAS THROUGH WRITING AND THE APPROPRIATE ELEMENTS AND CONVENTIONS OF STANDARD WRITTEN ENGLISH 8

Skill 2.1: Demonstrate knowledge of elements of the writing process (<i>e.g., brainstorming, drafting, revising, publishing</i>) and techniques for taking notes and developing drafts	8
Skill 2.2: Describe characteristics of and purposes for different writing forms (<i>e.g., essays, stories, reports</i>) and modes (<i>e.g., narrative, imaginative, expository, persuasive</i>)	10
Skill 2.3: Recognize elements of sentence and paragraph structure and formatting	12
Skill 2.4: Demonstrate knowledge of the use of introductions, main ideas, transitions, conclusions, and other forms of text organization in writing	15
Skill 2.5: Apply elements of appropriate grammar and usage (<i>e.g. noun-pronoun agreement, subject-verb agreement, consistent verb tense</i>)	16
Skill 2.6: Apply elements of appropriate punctuation and capitalization (<i>e.g., commas, apostrophes, quotation marks</i>)	22

COMPETENCY 3

UNDERSTAND FEATURES AND FORMS OF LITERATURE..... 27

Skill 3.1: Identify characteristics of literary forms (e.g., poetry, plays, novels, short stories) **and genres** (e.g., science fiction, mystery, historical fiction) 27

Skill 3.2: Identify characteristics of genres of nonfiction (e.g., essays, biographies, autobiographies, informational text) 29

Skill 3.3: Identify characteristics and functions of literary elements and devices (e.g., setting, plot, dialect, point of view, symbolism) 29

Skill 3.4: Recognize influences of cultural, social, biographical, and historical factors on the creation and development of literature 31

Skill 3.5: Demonstrate knowledge of genres, themes, authors, and works of literature written for children and adolescents 34

Skill 3.6: Recognize influence of nontraditional literary forms (e.g., editorial cartoons, media, advertising) 37

COMPETENCY 4

UNDERSTAND RESEARCH METHODS 38

Skill 4.1: Demonstrate knowledge of strategies for developing topics, questions, and purposes for inquiry prior to planning for and conducting research 38

Skill 4.2: Demonstrate knowledge of strategies for gathering, analyzing, synthesizing, and evaluating data from a variety of sources (e.g., print and nonprint texts, artifacts, people, libraries, databases, computer networks, videos) 40

Skill 4.3: Analyze ethical issues related to the use of resources, human subjects, materials, and the Internet (e.g., copyright, citations) 43

DOMAIN II

SOCIAL SCIENCE 47

COMPETENCY 5

UNDERSTAND IMPORTANT THEORIES, CONCEPTS, AND TERMINOLOGY RELATED TO CIVICS AND GOVERNMENT 51

Skill 5.1: Recognize the purposes of government and the basic constitutional principles of the U.S. government as a republic 51

Skill 5.2: Identify the responsibilities and interrelationships among national, state, and local governments in the United States 51

Skill 5.3: Identify roles and powers of the executive, legislative, and judicial branches 53

Skill 5.4: Identify the roles, rights, responsibilities, and participatory obligations of U.S. citizens, resident aliens, immigrants, and refugees 54

Skill 5.5: Recognize different ways that governments are organized and hold power, and ways in which individuals, groups, and international organizations influence government 55

Skill 5.6: Recognize ways in which the U.S. government relates to and interacts with other nations 57

COMPETENCY 6

UNDERSTAND IMPORTANT THEORIES, CONCEPTS, AND TERMINOLOGY RELATED TO ECONOMICS 59

Skill 6.1: Recognize the economic concepts of scarcity and supply and demand, and the purposes and functions of currency in the economy 59

Skill 6.2: Recognize that trade-offs and opportunity costs are decisions that can be measured in terms of costs and benefits 60

Skill 6.3: Identify the underlying philosophies and characteristics of various economic systems, including that of the U.S. economy..... 61

Skill 6.4: Identify the role of government and institutions in an economy, and ways in which the U.S. economy relates to and interacts with the economies of other nations 63

Skill 6.5: Identify the knowledge and skills necessary to make reasoned and responsible financial decisions as a consumer, producer, saver, and investor in a market economy 65

COMPETENCY 7

UNDERSTAND IMPORTANT THEORIES, CONCEPTS, AND TERMINOLOGY RELATED TO GEOGRAPHY..... 66

Skill 7.1: Apply knowledge of spatial concepts of geography (e.g., location, distance, direction, scale, region)..... 66

Skill 7.2: Apply knowledge of the purpose of maps, globes, and geographic tools, and locating major physical and human-constructed features of the earth 67

Skill 7.3: Apply knowledge of physical and population characteristics of places and regions, the processes that have shaped them, and their geographic significance..... 69

Skill 7.4: Describe the distribution and movement of people, ideas, and products, and evaluating the consequences of population changes resulting from economic, political, cultural, and/or environmental factors (e.g., globalization)..... 70

Skill 7.5: Identify how humans affect physical environments, and how physical characteristics and changes in the environment affect human activities..... 71

COMPETENCY 8

UNDERSTAND IMPORTANT EVENTS, CONCEPTS, AND TERMINOLOGY RELATED TO WORLD HISTORY 72

Skill 8.1: Recognize chronological relationships and patterns of change and continuity over time in world history 72

Skill 8.2: Demonstrate knowledge of early civilizations, including the development of empires and kingdoms (e.g., Africa, Imperial China, feudal Japan, the Americas)..... 73

Skill 8.3: Recognize the importance and lasting influence of events (e.g., the development of major world religions, the Industrial Revolution), issues (e.g., colonialism, imperialism, nationalism), and developments (e.g., the Renaissance the Cold War) in world history 75

Skill 8.4: Recognize the importance and lasting influence of major world conflicts 84

Skill 8.5: Analyze cause-and-effect relationships in world history 88

Skill 8.6: Analyze various perspectives and interpretations of events, issues, and developments in world history..... 90

COMPETENCY 9

UNDERSTAND IMPORTANT EVENTS, CONCEPTS, AND TERMINOLOGY RELATED TO THE HISTORY OF THE UNITED STATES AND THE STATE OF OREGON 90

Skill 9.1: Recognize chronological relationships and patterns of change and continuity over time in U.S. and Oregon history 90

Skill 9.2: Recognize the importance and lasting influence of people, events, issues, and developments in Oregon history (e.g., indigenous peoples of the region, the Lewis and Clark Expedition, nineteenth-century westward migration, human rights policies and practices, the use and conservation of natural resources) 112

Skill 9.3: Recognize the importance and lasting influence of events, issues, and developments in U.S. history (e.g., American Revolution, Constitutional Convention, European immigration, Irish Potato Famine, Mexican War, slavery, the Civil War, Asian migration, child labor laws, women’s suffrage, territorial expansion and imperialism, the Great Depression, the civil rights movement)..... 114

Skill 9.4: Analyze cause-and-effect relationships in the history of the United States and Oregon..... 120
 Skill 9.5: Analyze various perspectives and interpretations of issues and events in U.S. and Oregon history 120
 Skill 9.6: Demonstrate knowledge of strategies for interpreting events, issues, and developments in local history 121

COMPETENCY 10

UNDERSTAND METHODS OF SOCIAL SCIENCE RESEARCH AND ANALYSIS 122
 Skill 10.1: Recognize methods for analyzing an event, issue, problem, or phenomenon and its significance to society..... 122
 Skill 10.2: Identify strategies for gathering, using, and evaluating information to support analysis and conclusions 124
 Skill 10.3: Identify approaches for analyzing an event, issue, problem, or phenomenon from multiple perspectives 125
 Skill 10.4: Recognize methods for analyzing characteristics, causes, and consequences of an event, issue, problem, or phenomenon..... 126
 Skill 10.5: Recognize ways of comparing and evaluating outcomes, responses, or solutions, and using the results to reach conclusions and drive further inquiry 126

DOMAIN III

THE ARTS 127

COMPETENCY 11

UNDERSTAND TECHNIQUES AND MATERIALS ASSOCIATED WITH THE VISUAL ARTS AND THE CULTURAL, POLITICAL, AND HISTORICAL SIGNIFICANCE OF THE VISUAL ARTS..... 129
 Skill 11.1: Recognize basic terms and elements of the visual arts 129
 Skill 11.2: Identify media, techniques, and processes used in the visual arts 130
 Skill 11.3: Identify how cultural, political, and historical contexts influence works from the visual arts..... 131

COMPETENCY 12

UNDERSTAND TECHNIQUES AND MATERIALS ASSOCIATED WITH THEATER AND DANCE AND THE CULTURAL, POLITICAL, AND HISTORICAL SIGNIFICANCE OF THEATER AND DANCE 133
 Skill 12.1: Identify the basic nature, materials, elements, and means of communicating in theater (*e.g., dramatic media, musical theater, dance, music*)..... 133
 Skill 12.2: Identify elements and skills in performing dance (*e.g., balance, articulation of isolated body parts, weight shift*) 133
 Skill 12.3: Recognize the role of theater, film, television, and electronic media in the past and the present 134
 Skill 12.4: Recognize elements of dance from different styles or traditions 137
 Skill 12.5: Identify connections among dance, theater, and other disciplines taught in school 138

COMPETENCY 13

UNDERSTAND TECHNIQUES AND MATERIALS ASSOCIATED WITH MUSIC AND THE CULTURAL, POLITICAL, AND HISTORICAL SIGNIFICANCE OF MUSICAL GENRES AND STYLES..... 139
 Skill 13.1: Recognize basic principles of music (*e.g., meter, rhythm, chords, melody*) 139

Skill 13.2: Identify distinguishing characteristics of musical genres and styles from various cultures..... 140

Skill 13.3: Recognize the roles and functions of music in different cultures 142

Skill 13.4: Identify connections between music and other arts and other disciplines taught in school 142

DOMAIN IV READING INSTRUCTION 145

COMPETENCY 14 UNDERSTAND PHONOLOGICAL AND PHONEMIC AWARENESS 149

Skill 14.1: Demonstrate knowledge of phonological awareness (i.e., the awareness that oral language comprises units such as spoken words and syllables)..... 149

Skill 14.2: Demonstrate knowledge of phonemic awareness (i.e., a specific type of phonological awareness involving the ability to distinguish the individual sounds that make up a spoken word)..... 149

Skill 14.3: Demonstrate knowledge of the significance of phonological and phonemic awareness in emergent literacy development and strategies for promoting students’ phonological and phonemic awareness 151

Skill 14.4: Demonstrate knowledge of phonemic awareness skills (e.g., segmenting a spoken word into phonemes, blending phonemes to form a spoken word, deleting or substituting phonemes)..... 155

COMPETENCY 15 UNDERSTAND THE USE OF PHONICS AND OTHER WORD-IDENTIFICATION STRATEGIES 155

Skill 15.1: Recognize how beginning readers learn to apply knowledge of letter-sound correspondence to decode simple words..... 155

Skill 15.2: Describe how beginning readers use knowledge of common consonant-vowel patterns in single-syllable words to decode unfamiliar words through analogy with known words 159

Skill 15.3: Demonstrate knowledge of syllabication as a technique for identifying unfamiliar words containing more than one syllable 163

Skill 15.4: Apply knowledge of structural analysis as a word-identification strategy (e.g., identifying base words, roots, and inflections; identifying prefixes and suffixes)..... 166

Skill 15.5: Recognize strategies for identifying high-frequency sight words with irregular spellings..... 168

Skill 15.6: Recognize how readers use context, including semantic and syntactic clues, to help identify words, including words with multiple meanings 170

Skill 15.7: Demonstrate knowledge of curriculum materials and effective instruction in word-identification strategies for learners at various stages of literacy and from different cultural and language backgrounds 172

COMPETENCY 16 UNDERSTAND THE DEVELOPMENT OF VOCABULARY KNOWLEDGE AND SKILLS 174

Skill 16.1: Demonstrate knowledge of criteria for selecting appropriate vocabulary words (e.g., key words, words that are conceptually related, synonyms and antonyms, idioms, colloquial expressions) to increase students’ vocabulary knowledge 174

Skill 16.2: Demonstrate knowledge of a range of strategies for promoting and reinforcing students’ oral and written vocabulary knowledge (e.g., read-alouds, word sorts, word banks, semantic mapping, knowledge of words that form common word roots in English) 175

Skill 16.3: Recognize ways to help students make effective use of reference sources (e.g., dictionaries, thesauruses, glossaries) to clarify understanding of a word's denotative and connotative meanings 177

Skill 16.4: Demonstrate knowledge of the role of vocabulary development in reading comprehension..... 178

Skill 16.5: Demonstrate knowledge of curriculum materials and effective instruction in vocabulary knowledge and skills for learners at various stages of literacy and from different cultural and language backgrounds 178

COMPETENCY 17

UNDERSTAND READING COMPREHENSION AND FLUENCY 180

Skill 17.1: Demonstrate knowledge of literal comprehension (e.g., sequence of events in a narrative), **inferential comprehension** (e.g., drawing conclusions), and **evaluative comprehension** (e.g., analyze author's motivation and purpose) 180

Skill 17.2: Apply knowledge of strategies for promoting students' literal, inferential, and evaluative comprehension (e.g., analyze author's motivation and purpose) 180

Skill 17.3: Demonstrate knowledge of reading phrasing, rate, and expression as part of fluency 181

Skill 17.4: Recognize the role of automatic word recognition in reading fluency and the relationship between reading fluency and reading comprehension 182

Skill 17.5: Apply knowledge of strategies for promoting students' reading comprehension 184

Skill 17.6: Demonstrate knowledge of curriculum materials and effective instruction in reading comprehension and fluency for learners at various stages of literacy and from different cultural and language backgrounds..... 190

COMPETENCY 18

UNDERSTAND READING COMPREHENSION STRATEGIES FOR LITERARY AND INFORMATIONAL TEXT..... 210

Skill 18.1: Recognize how to apply comprehension strategies before reading (e.g., making predictions, previewing), **during reading** (e.g., self-questioning to monitor understanding, skimming, scanning), and **after reading** (e.g., retelling, summarizing) to promote understanding of literary and informational text 210

Skill 18.2: Demonstrate knowledge of literary response skills (e.g., connecting elements in a literary text to personal experience and other text) 212

Skill 18.3: Demonstrate knowledge of common patterns of organization in informational text (e.g., chronological, compare-and-contrast, cause-and-effect) 212

Skill 18.4: Describe the use of writing activities (e.g., note taking, outlining, summarizing, semantic maps, K-W-L charts) to promote comprehension of informational text 213

Skill 18.5: Demonstrate knowledge of curriculum materials and effective instruction in reading comprehension of literary and informational text for learners at various stages of literacy and from different cultural and language backgrounds 215

DOMAIN V

MATHEMATICS 217

COMPETENCY 19

UNDERSTAND MATHEMATICAL COMMUNICATION 221

Skill 19.1: Interpret mathematical terminology, symbols, and representations 221

Skill 19.2: Connect everyday language to mathematical language and symbols 222

Skill 19.3: Use visual (e.g., graphs, drawings), numeric, and symbolic representations to communicate mathematical concepts 222

Skill 19.4: Convert among visual (e.g., graphs, drawings), numeric, and symbolic representations 223

COMPETENCY 20

UNDERSTAND NUMBERS, NUMBER THEORY, AND NUMERATION 224

Skill 20.1: Demonstrate knowledge of the concepts of place value, prime numbers, multiples, factors, and integer numbers 224

Skill 20.2: Recognize numbers represented by exponential and scientific notation in context 229

Skill 20.3: Apply concepts of numbers and numeration to compare, order, and round up or down 231

Skill 20.4: Identify equivalent forms of fractions, decimals, and percentages 232

COMPETENCY 21

UNDERSTAND MATHEMATICAL PROBLEM SOLVING 234

Skill 21.1: Make use of pictures, models, charts, graphs, and symbols as tools of mathematical problem solving 234

Skill 21.2: Identify and use relevant information in a problem to solve it 235

Skill 21.3: Recognize and apply multiple solution strategies to problem solving 235

Skill 21.4: Evaluate calculations and problem-solving strategies to verify the accuracy of the results 237

COMPETENCY 22

UNDERSTAND METHODS OF MATHEMATICAL OPERATIONS, CALCULATION, AND ESTIMATION 237

Skill 22.1: Use the basic four operations with variables and numbers 237

Skill 22.2: Recognize relationships among mathematical operations 238

Skill 22.3: Apply properties of real numbers and the number system (e.g., commutative, associative) 239

Skill 22.4: Make calculations with whole numbers, decimals, fractions, and integer numbers 241

Skill 22.5: Apply methods of approximation and estimation (e.g., rounding) 252

Skill 22.6: Identify strategies for estimating solutions and for evaluating the accuracy of estimated solutions 253

Skill 22.7: Recognize methods and tools for computing with numbers (e.g., mental calculation, paper and pencil, calculator, computer) 255

COMPETENCY 23

UNDERSTAND AND APPLY CONCEPTS AND METHODS OF MEASUREMENT 255

Skill 23.1: Identify and use appropriate procedures and units of measurement for problems involving length, area, volume, weight, angles, time, and temperature 255

Skill 23.2: Identify and use appropriate measurement tools in various situations 264

Skill 23.3: Demonstrate knowledge of conversions within and between measurement systems 265

Skill 23.4: Identify approaches to direct measurement through standard and nonstandard units and indirect measurement through the use of algebra or geometry 267

COMPETENCY 24

UNDERSTAND PATTERNS, RELATIONSHIPS, AND ALGEBRAIC CONCEPTS 268

- Skill 24.1: Define and describe patterns and relationships using various representations** (*e.g., numbers, symbols, variables, visual representations*)..... 268
- Skill 24.2: Solve linear and nonlinear equations and inequalities** 269
- Skill 24.3: Identify algebraic concepts of relation and function** (*e.g., domain, range*) **to analyze mathematical relationships** 273
- Skill 24.4: Represent relationships among variables using words, tables, graphs, and rules** 275
- Skill 24.5: Make use of algebraic functions to plot points, describe graphs, determine slope, and extrapolate** 275

COMPETENCY 25

UNDERSTAND AND APPLY PRINCIPLES AND PROPERTIES OF GEOMETRY 280

- Skill 25.1: Recognize the geometric properties of and relationships between two- and three-dimensional figures**..... 280
- Skill 25.2: Apply knowledge of basic geometric concepts** (*e.g., symmetry, similarity, congruence*)..... 284
- Skill 25.3: Identify and measure component parts of geometric figures** (*e.g., angles, lines, segments*)..... 287
- Skill 25.4: Apply knowledge of symmetry and transformations** (*i.e., translation, glide, rotation, reflection*) **of geometric figures** 290
- Skill 25.5: Make use of geometric models and properties of figures to solve problems** 292

COMPETENCY 26

UNDERSTAND CONCEPTS AND APPLICATIONS OF PROBABILITY 293

- Skill 26.1: Recognize real-world applications of probabilities and their consequences** 293
- Skill 26.2: Recognize expressions of probabilities as fractions, ratios, and decimals** 294
- Skill 26.3: Determine theoretical probabilities and make predications based on them** 295
- Skill 26.4: Determine probabilities of dependent and independent events** 295
- Skill 26.5: Make use of tools** (*e.g., spinners, dice*) **to estimate probabilities** 298

COMPETENCY 27

UNDERSTAND CONCEPTS AND APPLICATIONS OF STATISTICS 299

- Skill 27.1: Apply knowledge of methods for organizing data in a variety of formats** (*e.g., frequency distributions, charts, tables, stem and leaf plots, bar graphs, histograms, line graphs, circle graphs*) 299
- Skill 27.2: Interpret statistical data expressed in various formats**..... 302
- Skill 27.3: Identify assumptions, trends, and patterns in data** 304
- Skill 27.4: Recognize limitations of data and models and their use in drawing conclusions** 307
- Skill 27.5: Describe data using standard measures** (*e.g., mean, median, mode, range, variability*) 307

COMPETENCY 28

UNDERSTAND THE NATURE AND HISTORIES OF MATHEMATICS 309

- Skill 28.1: Recognize the histories and importance of mathematical ideas and the contribution of various cultures and individuals to mathematical knowledge** 309

Skill 28.2: Identify inherent values of mathematics (*e.g., patterns, justifications, proofs*)..... 311
 Skill 28.3: Identify the roles and importance of mathematics in everyday life and in various occupations 316

DOMAIN VI
SCIENCE..... 319

COMPETENCY 29
UNDERSTAND CONCEPTS AND PRINCIPLES OF PHYSICAL SCIENCE..... 323

Skill 29.1: Recognize the structure and properties of matter (*e.g., boiling and melting points, solubility, density*)..... 323
 Skill 29.2: Identify chemical and physical changes 324
 Skill 29.3: Identify fundamental forces and the motions resulting from them 325
 Skill 29.4: Recognize concepts of conservation and transfer of energy, and analyze the interaction of energy and matter 327
 Skill 29.5: Recognize basic principles of electricity and magnetism 328
 Skill 29.6: Identify the characteristics of light and sound 331

COMPETENCY 30
UNDERSTAND CONCEPTS AND PRINCIPLES OF LIFE SCIENCE..... 334

Skill 30.1: Recognize the characteristics, structure, and functions of organisms..... 334
 Skill 30.2: Analyze the life cycles of common organisms (*e.g., butterfly, frog*) 338
 Skill 30.3: Analyze the transmission of traits in living things 339
 Skill 30.4: Recognize the interdependence of organisms in their natural environment 341
 Skill 30.5: Analyze the effects of species, including humans, on an ecosystem 342
 Skill 30.6: Recognize the diversity of organisms and the adaptations that help organisms survive 343

COMPETENCY 31
UNDERSTAND CONCEPTS AND PRINCIPLES OF EARTH AND SPACE SCIENCE 345

Skill 31.1: Recognize the structure of Earth’s lithosphere, hydrosphere, and atmosphere 345
 Skill 31.2: Identify the properties of Earth’s materials, and the availability and use of those materials 347
 Skill 31.3: Analyze changes occurring within Earth’s lithosphere, hydrosphere, and atmosphere and interactions among those systems 348
 Skill 31.4: Analyze the relationships among the Earth, Sun, Moon, and solar system (*e.g., seasons, tides, eclipses*)..... 349
 Skill 31.5: Recognize changes that have occurred in Earth’s history (*e.g., glaciation, mass extinction, plate tectonics*) 352

COMPETENCY 32
UNDERSTAND CONCEPTS AND PRINCIPLES OF SCIENTIFIC INQUIRY AND INVESTIGATION 354

Skill 32.1: Demonstrate knowledge of methods used for making observations and for formulating and expressing scientific questions or hypotheses to be investigated based on the observations..... 354

Skill 32.2: Identify methods for conducting scientific investigations to address and explain questions or hypotheses 355

Skill 32.3: Identify strategies for collecting, organizing, analyzing, and displaying scientific data 357

Skill 32.4: Demonstrate knowledge of systems of measurement used in science 358

Skill 32.5: Identify strategies for summarizing and analyzing scientific information, including possible sources of error, and suggesting reasonable and accurate interpretations and implications..... 360

COMPETENCY 33

UNDERSTAND THE RELATIONSHIPS AMONG SCIENCE, TECHNOLOGY, AND SOCIETY 360

Skill 33.1: Analyze the effects of science and technology on society 360

Skill 33.2: Analyze the influence of society on science and technology 360

Skill 33.3: Identify the advantages and risks of scientific and technological changes..... 361

Skill 33.4: Identify career opportunities in the fields of science and technology 363

COMPETENCY 34

UNDERSTAND THE NATURE AND HISTORY OF SCIENCE..... 365

Skill 34.1: Recognize the history of important scientific ideas and the contributions of various cultures and individuals to scientific knowledge 365

Skill 34.2: Recognize unifying concepts of science (*e.g., systems, equilibrium*) 367

Skill 34.3: Identify inherent values of science (*e.g., using logical arguments, avoiding researcher bias, acknowledging paradigm shifts*)..... 369

Skill 34.4: Recognize the process and importance of peer review of scientific findings 369

DOMAIN VII

HEALTH AND PHYSICAL EDUCATION 371

COMPETENCY 35

UNDERSTAND BASIC PRINCIPLES AND PRACTICES RELATED TO PERSONAL AND COMMUNITY HEALTH AND SAFETY 373

Skill 35.1: Recognize basic processes of human growth, development, and body systems..... 373

Skill 35.2: Identify strategies for maintaining personal mental and physical health (*e.g., hygiene, sleep, exercise, nutrition*) 383

Skill 35.3: Recognize the role culture plays in mental and physical well-being..... 384

Skill 35.4: Recognize common health issues of children, the signs and symptoms of health problems (*e.g., allergies, asthma, conjunctivitis, pediculosis*), and how they can be prevented or treated 385

Skill 35.5: Recognize the influence of various factors on personal and community health and safety..... 387

Skill 35.6: Recognize the importance of positive interventions (*e.g., community involvement, nonviolent conflict resolution*) on personal and community health and safety 389

COMPETENCY 36

UNDERSTAND BASIC PRINCIPLES AND PRACTICES RELATED TO LIFETIME PHYSICAL FITNESS	391
Skill 36.1: Identify components of fitness (<i>e.g., cardiovascular endurance, flexibility, coordination</i>).....	391
Skill 36.2: Identify activities that promote lifetime physical fitness	392
Skill 36.3: Recognize ways to prevent or lower the risk of injury and disease	393
Skill 36.4: Recognize the influence of media on health choices, body image, and self-confidence	394
Skill 36.5: Recognize consequences of substance use and abuse	394
Skill 36.6: Identify strategies for promoting students' ability to use skills that contribute to good health (<i>e.g., problem solving, decision making, locating and evaluating information about health services</i>).....	396

COMPETENCY 37

UNDERSTAND BASIC PRINCIPLES AND PRACTICES OF PHYSICAL EDUCATION	397
Skill 37.1: Identify basic locomotor patterns (<i>e.g., run, gallop, slide, horizontal jump, hop, leap, skip, starting and stopping</i>)	397
Skill 37.2: Recognize principles of training, conditioning, and practicing for specific physical activities (<i>e.g., swimming, running</i>).....	399
Skill 37.3: Identify safety practices associated with physical activities	402
Skill 37.4: Recognize appropriate rules and strategies for physical activities, cooperative and competitive games, and sports	406
Skill 37.5: Demonstrate knowledge of physical activities, games, and sports for individuals at various activity levels	415
Skill 37.6: Recognize cross-cultural origins of physical activities, games, and sports	425

SAMPLE TEST

Sample Test	431
Answer Key	436
