

Table of Contents

DOMAIN I.	MOVEMENT SKILLS AND KNOWLEDGE	
COMPETENCY 1.0	PRINCIPLES OF MOTOR DEVELOPMENT AND MOTOR LEARNING	1
SKILL 1.1	Demonstrate knowledge of principles and stages of motor development	1
SKILL 1.2	Know motor learning principles, processes, and concepts and use this knowledge to promote students' acquisition and refinement of motor skills	1
SKILL 1.3	Demonstrate knowledge of principles and components of perceptual-motor development and their relationship to motor performance	3
SKILL 1.4	Analyze the impact of various factors on motor development and relate developmental changes to motor performance	5
SKILL 1.5	Apply knowledge of techniques for evaluating motor skills, detecting errors in motor performance, and providing positive corrective feedback	7
COMPETENCY 2.0	PRINCIPLES AND PRACTICES FOR DEVELOPING, COMBINING, AND INTEGRATING MOTOR SKILLS	9
SKILL 2.1	Recognize characteristics and elements of locomotor, nonlocomotor, manipulative, and rhythmic skills	9
SKILL 2.2	Demonstrate knowledge of characteristics and elements of manipulative skills and mature motor patterns	11
SKILL 2.3	Demonstrate knowledge of activities, strategies, safety practices, and equipment for promoting students' development of locomotor, nonlocomotor, body control, manipulative, and rhythmic skills	13
SKILL 2.4	Know how to select and use developmentally appropriate techniques and activities to promote students' integration and refinement of locomotor, nonlocomotor, body control, manipulative, and rhythmic skills	16
SKILL 2.5	Recognize and analyze key elements in combinations of motor skills, demonstrations of agility and balance, and dance steps and sequences.	18

SKILL 2.6	Demonstrate knowledge of techniques and activities for refining and improving motor skills in games, sports, and dance activities and for adjusting movements, techniques, and tactics based on feedback and critical evaluation	19
COMPETENCY 3.0	MOVEMENT CONCEPTS AND BIOMECHANICAL PRINCIPLES	21
SKILL 3.1	Apply knowledge of movement concepts related to time, space, direction, level, force, and flow and kinesthetic awareness concepts such as direction and relationships to objects	21
SKILL 3.2	Relate biomechanical principles to various movement activities	26
SKILL 3.3	Identify techniques and activities for promoting students' understanding and application of movement concepts and biomechanical principles	30
SKILL 3.4	Know how to use movement concepts and biomechanical principles to analyze movement skills, promote the acquisition and refinement of specific movements and sports skills, improve body mechanics for safe and efficient movement, and appreciate the aesthetics of creative and skilled movements	30
SKILL 3.5	Recognize and analyze similar movement concepts and elements in various movement patterns and sports skills	31
COMPETENCY 4.0	INDIVIDUAL, DUAL, AND TEAM SPORTS AND ACTIVITIES	33
SKILL 4.1	Demonstrate knowledge of techniques, skills progressions, conditioning programs, rules, safety practices, offensive and defensive strategies, and types and uses of equipment for individual, dual, and team sports and activities	33
SKILL 4.2	Analyze the importance of rules, etiquette, teamwork, and appropriate participant and spectator behavior in individual, dual, and team sports and activities	69
SKILL 4.3	Know key elements of successful performance in individual, dual, and team sports and activities and strategies for improving students' performance, teamwork, and skill combinations	70
SKILL 4.4	Apply knowledge of principles and techniques for selecting, adapting, and modifying sports activities to improve performance, promote the use of combinations of motor skills, and provide practice in specific sports skills in game-like situations	71

Skill 6.5	Demonstrate an understanding of basic principles of physical fitness training, and know principles and benefits of warm-up and cool-down exercise procedures	102
Skill 6.6	Analyze individual variation in levels of health and fitness and know principles and techniques for designing, implementing, and maintaining individualized health and fitness plans	105
Skill 6.7	Know how to promote students' ability to assess their own fitness levels, interests, and skill levels in order to encourage participation in lifelong physical activity	107

COMPETENCY 7.0 PRINCIPLES AND ACTIVITIES FOR DEVELOPING AND MAINTAINING CARDIOVASCULAR ENDURANCE 108

Skill 7.1	Demonstrate knowledge of principles, skills, exercises, and physiological processes involved in aerobic conditioning	108
Skill 7.2	Evaluate and select appropriate cardiovascular endurance activities for various developmental levels and purposes	109
Skill 7.3	Demonstrate knowledge of techniques for monitoring intensity, duration, and endurance levels during aerobic activities and techniques for student self-assessment of cardiovascular health and fitness	110
Skill 7.4	Analyze potential health risks involved in cardiovascular endurance training and know risk reduction techniques	112
Skill 7.5	Apply knowledge of anatomy, kinesiology, and physiological principles to design, adapt, and modify activities that promote cardiovascular endurance	112

COMPETENCY 8.0 PRINCIPLES AND ACTIVITIES FOR DEVELOPING AND MAINTAINING FLEXIBILITY, POSTURE, AND MUSCULAR STRENGTH AND ENDURANCE 114

Skill 8.1	Demonstrate knowledge of principles, skills, exercises, and proper form for promoting strength and endurance of the muscles of the abdomen, lower back, upper body, trunk, and legs	114
Skill 8.2	Demonstrate knowledge of principles, skills, exercises, and proper form for promoting good posture and flexibility of major joints and areas of the body	128
Skill 8.3	Demonstrate knowledge of procedures for evaluating muscular strength and endurance and flexibility	130

Skill 8.4	Apply knowledge of anatomy, kinesiology, and physiological principles to design, adapt, modify, evaluate, and select appropriate activities for improving muscular strength and endurance, flexibility, and posture	130
Skill 8.5	Apply knowledge of principles, safety practices, and equipment for progressive-resistance exercise	133
Skill 8.6	Know how to determine appropriate intensity, duration, and frequency for training	135
Skill 8.7	Evaluate the safety and effectiveness of various exercises and types of training for promoting muscular strength and endurance, flexibility, and good posture, including contraindicated exercises and body positions	136
COMPETENCY 9.0	HEALTH AND WELLNESS CONCEPTS, INCLUDING THOSE RELATED TO NUTRITION, WEIGHT CONTROL, STRESS MANAGEMENT, AND WAYS IN WHICH BEHAVIORS INFLUENCE HEALTH AND WELLNESS	138
Skill 9.1	Demonstrate knowledge of basic principles of nutrition and weight management and ways in which diet and exercise patterns affect physical performance and personal health and well-being	138
Skill 9.2	Know principles and techniques for evaluating body composition and identify appropriate activities and strategies for developing and maintaining a healthy body composition	140
Skill 9.3	Analyze the effects of various factors on physical performance and on health and demonstrate knowledge of techniques and principles for evaluating personal health risk factors	141
Skill 9.4	Apply knowledge of positive health behaviors and strategies for promoting students' understanding of relationships between behavior choices and personal health	143
Skill 9.5	Know the effects of stress on the body, techniques for Managing stress, and the physiological and psychological benefits of stress management	145
Skill 9.6	Demonstrate knowledge of common student misconceptions and faulty practices related to physical activity, health, exercise, and diet and know how to educate students about these misconceptions and faulty practices	147
Skill 9.7	Know how to evaluate information related to health and fitness products, programs, facilities, and services	149

DOMAIN III.

THE PHYSICAL EDUCATION PROGRAM

COMPETENCY 10.0	EFFECTIVE, DEVELOPMENTALLY APPROPRIATE INSTRUCTION AND ASSESSMENT	151
Skill 10.1	Demonstrate knowledge of how students differ in their approaches to learning and physical performance and use this knowledge to provide equitable and appropriate instruction that draws upon student strengths as a basis for growth	151
Skill 10.2	Know how to design and implement instruction that is based on the Texas Essential Knowledge and Skills (TEKS) for physical education and that is safe, achieves goals, and ensures student progress, motivation, and safety	154
Skill 10.3	Know how to use a variety of instructional models, strategies materials, technologies, to address specific purposes, objectives, learning needs, and program goals	155
Skill 10.4	Know how to create, modify, and adapt physical education activities, games, rules, equipment, and settings to ensure that all students have an equal opportunity to participate, learn, be successful, and enjoy physical activity	158
Skill 10.5	Know how to provide appropriate verbal and nonverbal teaching cues and positive feedback to students in physical education settings and how to communicate to students the importance of physical activity, health, and fitness.....	160
Skill 10.6	Demonstrate an understanding of the characteristics, advantages, limitations, and applications of assessment methods used in physical education and know how to select, construct, adapt, and implement, assessments for various purposes.....	161
Skill 10.7	Know how to use available technology to analyze student progress, fitness, and performance	164
Skill 10.8	Apply skills for interpreting student performance and fitness data and skills for using data to analyze progress, provide feedback about strengths and areas of need, and recommend prescriptive exercise	165

COMPETENCY 11.0 FACTORS RELEVANT TO LEARNING AND PERFORMANCE IN PHYSICAL EDUCATION AND LEARNING ENVIRONMENTS AND OPPORTUNITIES THAT PROMOTE STUDENTS' DEVELOPMENT..... 169

Skill 11.1 Analyze ways in which developmental and other factors influence student attitudes toward and engagement in physical activity 169

Skill 11.2 Demonstrate knowledge of strategies for motivating and encouraging students to participate in lifelong physical activity and for helping students become self-motivated 172

Skill 11.3 Identify principles, benefits, and limitations of various classroom management approaches in physical activity settings and know techniques for organizing, allocating, scheduling, and managing resources in the physical education environment to provide active and equitable learning experiences 175

Skill 11.4 Demonstrate knowledge of strategies for creating a positive climate for individual and group activities and for organizing and managing heterogeneous physical education classes in ways that promote positive interactions and active engagement in learning by all students..... 176

Skill 11.5 Analyze how participation in physical education activities can promote students' development of positive personal traits and abilities 177

Skill 11.6 Analyze how participation in physical education activities can promote students' development of positive social behaviors and traits..... 181

Skill 11.7 Apply knowledge of methods for promoting student development of self-management skills in relation to physical activity and health-related lifestyle decisions..... 183

Skill 11.8 Demonstrate knowledge of principles and techniques for promoting students' goal-setting analysis, problem-solving, and decision-making skills in physical education contexts..... 185

COMPETENCY 12.0 STRUCTURE, ORGANIZATION, GOALS, AND PURPOSES OF PHYSICAL EDUCATION PROGRAMS 187

Skill 12.1 Demonstrate knowledge of the structure, organization, goals, and purposes of physical education programs 187

Skill 12.2 Analyze philosophies, trends, and issues in physical education and their effects on the goals, scope, and components of physical education programs 188

Skill 12.3	Demonstrate knowledge of characteristics of an effective physical education program and important state and national initiatives that influence physical education content and practices	192
Skill 12.4	Apply knowledge of principles and techniques for evaluating the effectiveness of the physical education program and for adopting and modifying practices and programs based on reflection, assessment data, observation of students, and program evaluation results	193
Skill 12.5	Demonstrate knowledge of strategies for advocating for physical education and for identifying and publicizing opportunities and resources for physical activity in the school and community	195
Skill 12.6	Understand relationships between physical education and other subject areas and know strategies for integrating physical education concepts across the curriculum	197
COMPETENCY 13.0	LEGAL ISSUES AND RESPONSIBILITIES OF PHYSICAL EDUCATION TEACHERS IN RELATION TO SUPERVISION, PLANNING AND INSTRUCTION, SAFETY, FIRST AID, AND RISK MANAGEMENT	198
Skill 13.1	Apply knowledge of legal and ethical issues and responsibilities relevant to physical education	198
Skill 13.2	Demonstrate knowledge of state and federal laws and guidelines regarding student rights and teacher responsibilities in physical education contexts.....	201
Skill 13.3	Demonstrate an understanding of the development and use of safety rules, risk-management plans, emergency plans, and injury reports	204
Skill 13.4	Demonstrate knowledge of inherent risks, physical and environmental dangers, potential safety hazards, and potential liabilities associated with participating in physical activities and techniques for informing students, families, and staff of potential risks	207
Skill 13.5	Demonstrate an understanding of methods for minimizing risk and liability and for ensuring the safety of participants in games, sports, and other physical activities	208
Skill 13.6	Demonstrate knowledge of injury prevention techniques and of first aid, cardiopulmonary resuscitation (CPR), and emergency procedures	212

Annotated List of Resources	216
Sample Test.....	218
Answer Key	233
Rigor Table	234
Rationales with Sample Questions	235
